Press release
27 February 2019

Eoliennes en mer de Dieppe - Le Tréport: green light for ENGIE, EDPR, Sumitomo Corporation and la Banque des Territoires

Attributed to the company Eoliennes en Mer Dieppe-Le Tréport (EMDT) in June 2014, the project for the grounded offshore wind farm off the coast of Dieppe – Le Tréport is taking shape.

Having obtained on 26 February, 2019 the necessary prefectural* authorisations, EMDT, supported by ENGIE, EDPR, Sumitomo Corporation and la Banque des Territoires, will now be able to prepare the farm's construction (foundations, electricity substation, cables between the wind turbines, etc.) and proceed with the calls to tender for subcontractors to manufacture and install the components.

The Dieppe-Le Tréport offshore wind farm, together with Yeu and Noirmoutier island off-shore wind farm project, also being developed by ENGIE, EDPR, Sumitomo Corporation and the Banque des Territoires, will create nearly 3000 direct and indirect jobs. These jobs will come into effect during the construction and operation phases of the farms, notably via the two Siemens Gamesa factories planned at Le Havre and set to be operational in 2021.

Through the construction of these two offshore wind farms (1 GW of cumulative power), the ENGIE – EDPR – Sumitomo Corporation – Banque des Territoires consortium confirms its ambitions in the offshore wind market and its active participation in the consolidation of a French industrial sector. The commissioning of both of these wind farms will help France to reach its targets in terms of increasing renewable energy use for more sustainable and attractive territories.

**The authorization of the Normandie Prefect covers the concession for use of the public maritime domain and the request under article L.214-3 of the French Environmental Code ("Water Law" authorisation), concerning the project's impact on the aquatic environment, and special dispensation from legislation prohibiting the destruction of protected species.*

About ENGIE

We are a global energy and services group, focused on three core activities: low-carbon power generation, mainly based on natural gas and renewable energy, global networks and customer solutions. Driven by our ambition to contribute to harmonious progress, we address major global challenges such as the fight against global warming, access to energy for all and mobility, and offer our residential customers, businesses and communities energy production solutions and services that reconcile individual and collective interests.

Our integrated – low-carbon, high-performing and sustainable – offers are based on digital technologies. Beyond energy, they facilitate the development of new uses and promote new ways of living and working. Our ambition is conveyed by each of our 150,000 employees in 70 countries. Together with our customers and partners, they form a community of imaginative builders who invent and build today solutions for tomorrow.

2017 turnover: €65 billion. Listed in Paris and Brussels (ENGI), the Group is represented on the main financial (CAC 40, BEL 20, Euro STOXX 50, STOXX Europe 600, MSCI Europe, Euronext 100, FTSE Eurotop 100, Euro STOXX Utilities, STOXX Europe 600 Utilities) and extra-financial indices (DJSI World, DJSI Europe and Euronext Vigeo Eiris - World 120, Eurozone 120, Europe 120, France 20, CAC 40 Governance).
