

GDF SUEZ

(incorporated with limited liability in the Republic of France) as Issuer

€25,000,000,000 Euro Medium Term Note Programme

Under the Euro Medium Term Note Programme described in this Base Prospectus (the “**Programme**”), GDF SUEZ (“**GDF SUEZ**” or the “**Issuer**”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue Euro Medium Term Notes (the “**Notes**”). The aggregate nominal amount of Notes outstanding will not at any time exceed €25,000,000,000 (or the equivalent in other currencies). Subject to compliance with all relevant laws, regulations and directives, Notes may be issued in euro, U.S. dollar, Japanese yen, Swiss franc, Sterling and in any other currency agreed between GDF SUEZ and the relevant Dealers.

This Base Prospectus supersedes and replaces the Base Prospectus dated 4 November 2009 and shall be in force for a period of one year as of the date set out hereunder.

This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 (the “**Prospectus Directive**”) in respect of, and for the purposes of giving information with regard to, GDF SUEZ and its fully consolidated subsidiaries taken as a whole (the “**Group**”), which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of GDF SUEZ.

Application has been made to the *Autorité des marchés financiers* (the “**AMF**”) in France for approval of this Base Prospectus, in its capacity as competent authority pursuant to Article 212-2 of its *Règlement Général* which implements the Directive 2003/71/EC of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading.

Application may be made to Euronext Paris for the period of 12 months from the date of this Base Prospectus for Notes issued under the Programme to be listed and admitted to trading on Euronext Paris and/or to the listing authority of any other Member State of the European Economic Area (“**EEA**”) for Notes issued under the Programme to be listed and admitted to trading on a Regulated Market (as defined below) in such Member State. Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2004/39/EEC, appearing on the list of regulated markets issued by the European Commission (a “**Regulated Market**”).

However, Notes may be issued under the Programme that are listed on other stock exchanges (whether on a Regulated Market or not) or are not listed and admitted to trading. The relevant final terms (the “**Final Terms**”) (a form of which is contained herein) in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading and, if so, the relevant stock exchange.

Notes will be in such denomination(s) as may be specified in the relevant Final Terms, save that the minimum denomination of each Note will be €1,000, and if the Notes are denominated in a currency other than euro, the equivalent amount in such currency at the issue date, or such higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant specified currency. Notes may be issued either in dematerialised form (the “**Dematerialised Notes**”) or, in materialised form (the “**Materialised Notes**”) as more fully described herein. Dematerialised Notes will at all times be in book entry form in compliance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier*. No physical documents of title will be issued in respect of the Dematerialised Notes. Materialised Notes will be in bearer form only and may only be issued outside France and the United States. A temporary global certificate in bearer form without interest coupons attached (a “**Temporary Global Certificate**”) will initially be issued in connection with Materialised Notes. No interest will be payable on the Temporary Global Certificate. Such Temporary Global Certificate will be exchanged for definitive Materialised Notes in bearer form with, where applicable, coupons for interest attached on or after a date expected to be on or about the 40th day after the issue date of the Notes upon certification as to non U.S. beneficial ownership as more fully described herein. Temporary Global Certificates will (a) in the case of a Tranche (as defined below) intended to be cleared through Euroclear Bank S.A./N.V. (“**Euroclear**”) and/or Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**”), be deposited on the issue date with a common depositary on behalf of Euroclear and/or Clearstream, Luxembourg and (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear and/or Clearstream, Luxembourg or delivered outside a clearing system, be deposited as agreed between the Issuer and the relevant Dealer (as defined below).

The Programme has been rated Aa3 by Moody’s Investors Service Ltd (“**Moody’s**”) and A by Standard and Poor’s Ratings Services (“**S&P**”). GDF SUEZ is currently rated Aa3/P-1 under review for possible downgrade by Moody’s and A/A-1 by S&P with creditwatch negative following the announcement of the potential transaction with International Power referred to in the section “*Recent Developments of the Issuer*” of this Base Prospectus. Notes issued pursuant to the Programme may be unrated or rated differently from the current ratings of GDF SUEZ and the Programme. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The final terms of the Notes will be determined at the time of the offering of each Tranche and will be set out in the relevant Final Terms.

The Base Prospectus, the documents incorporated by reference therein, any supplement thereto and the Final Terms will be available as described in the section entitled “Documents on Display” herein and in the relevant Final Terms.

3 Facteurs de Risques

(A) Facteurs de risques liés à l'Émetteur

Les investisseurs potentiels doivent considérer, entre autres, les facteurs de risque décrits au paragraphe « **Facteurs de Risques** » du Prospectus de Base, qui contient les facteurs de risques suivants relatifs à GDF SUEZ, son exploitation et son activité et qui sont inhérents à tout investissement dans les Titres émis dans le cadre du Programme :

- Risques relatifs à l'environnement en mutation dans lequel GDF SUEZ agit ;
- Risques relatifs au modèle d'entreprise de GDF SUEZ qui est soumis à de nombreuses contraintes ;
- Risques liés à la sécurité industrielle qui est au cœur de l'activité de GDF SUEZ ;
- Risques transverses liés à l'éthique et à la compliance, risques juridiques et ressources humaines, la santé, la sécurité, la sûreté et la protection du patrimoine et les risques liés aux systèmes d'information.

Chacun de ces risques est susceptible d'avoir un effet négatif significatif sur GDF SUEZ, sa stratégie, son exploitation, ses actifs, ses perspectives, sa situation financière, son résultat ou le prix de ses actions.

Se reporter au paragraphe « **Facteurs de Risques** » du Prospectus de Base pour de plus amples informations.

(B) Facteurs de risques liés aux Titres

Certains facteurs pourraient affecter la capacité de GDF SUEZ à remplir ses obligations vis-à-vis des porteurs de Titres émis dans le cadre du Programme, notamment :

- Risques généraux relatifs aux Titres (ex : revue indépendante et conseil, conflits d'intérêt potentiels, légalité de la souscription, fiscalité, risques de liquidité et risques de change) tels que :

 - la valeur des Titres sera affectée par la solvabilité de GDF SUEZ, et/ou du Groupe et par un certain nombre de facteurs supplémentaires ;
- Risques relatifs à la structure d'une émission particulière de Titres (ex : option de remboursement, Titres à taux fixe, Titres à taux flottant, Titres indexés).

Se reporter au paragraphe « **Facteurs de Risques** » du Prospectus de Base pour de plus amples informations.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

1 Risk Factors Relating to the Notes

The following paragraphs describe some of the risk factors that are material to the Notes to be admitted to trading in order to assess the market risk associated with these Notes. They do not describe all the risks of an investment in the Notes. Prospective investors should consult their own financial and legal advisers about risks associated with investment in a particular Series of Notes and the suitability of investing in the Notes in light of their particular circumstances. These risk factors may be completed in the Final Terms of the relevant Notes for a particular issue of Notes.

Terms defined herein shall have the same meaning as in the Terms and Conditions of the Notes.

1.1 General Risks Relating to the Notes

Independent Review and Advice

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuer, the Arranger or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Potential Conflicts of Interest

Each of the Issuer, the Arranger, the Dealer(s) or their respective affiliates may deal with and engage generally in any kind of commercial or investment banking or other business with any issuer of the securities taken up in an index, their respective affiliates or any guarantor or any other person or entities having obligations relating to any issuer of the securities taken up in an index or their respective affiliates or any guarantor in the same manner as if any index-linked Notes issued under the Programme did not exist,

regardless of whether any such action might have an adverse effect on an issuer of the securities taken up in the index, any of their respective affiliates or any guarantor.

The Issuer may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Potential conflicts of interest may arise between the Calculation Agent, if any, for a Tranche of Notes and the Noteholders, including with respect to certain discretionary determinations and judgments that such Calculation Agent may make pursuant to the Terms and Conditions of the Notes that may influence the amount receivable upon redemption of the Notes.

Legality of Purchase

Neither the Issuer, the Arranger, the Dealer(s) nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

Modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Regulatory Restrictions

Investors whose investment activities are subject to investment laws and regulations or to review or regulation by certain authorities may be subject to restrictions on investments in certain types of debt securities. Investors should review and consider such restrictions prior to investing in the Notes.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. Potential investors cannot rely upon the tax summary contained in this Base Prospectus and/or in the Final Terms but should ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the taxation sections of this Base Prospectus and the additional tax sections, if any, contained in the relevant Final Terms.

EU Savings Directive

On 3 June 2003, the European Council of Economics and Finance Ministers adopted a directive 2003/48/EC on the taxation of savings income under the form of interest payments (the "**Directive**"). The Directive requires Member States, subject to a number of conditions being met, to provide to the tax authorities of other Member States details of payments of interest and other similar income made by a paying agent located within its jurisdiction to an individual resident in that other Member State, except that, for a transitional

period, Luxembourg and Austria will instead withhold an amount on interest payments unless the relevant beneficial owner elects otherwise and authorises the paying agent to disclose the above information (see “**Taxation – EU Taxation**”).

Pursuant to the Terms and Conditions of the Notes, if a payment were to be made or collected through a Member State which has opted for a withholding system under the Directive and an amount of, or in respect of, tax is withheld from that payment, neither the Issuer, nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note, as a result of the imposition of such withholding tax. If a withholding tax is imposed on a payment made by a Paying Agent, the Issuer will be required to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Directive.

Change of Law

The Terms and Conditions of the Notes are based on French laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in French laws or administrative practice after the date of this Base Prospectus.

Liquidity Risks/Trading Market for the Notes

The Notes may not have an established trading market when issued. There can be no assurance of a secondary market for the Notes or the continued liquidity of such market if one develops.

The development or continued liquidity of any secondary market for the Notes will be affected by a number of factors such as general economic conditions, the financial condition, the creditworthiness of the Issuer and/or the Group, and the value of any applicable reference rate, as well as other factors such as the complexity and volatility of the reference rate, the method of calculating the return to be paid in respect of such Notes, the time remaining to the maturity of the Notes, the outstanding amount of the Notes, any redemption features of the Notes, the performance of other instruments (e.g., commodities or securities) linked to the reference rates and the level, direction and volatility of interest rates generally. Such factors also will affect the market value of the Notes. In addition, certain Notes may be designed for specific investment objectives or strategies and therefore may have a more limited secondary market and experience more price volatility than conventional debt securities.

Investors may not be able to sell Notes readily or at prices that will enable investors to realise their anticipated yield. No investor should purchase Notes unless the investor understands and is able to bear the risk that certain Notes will not be readily sellable, that the value of Notes will fluctuate over time and that such fluctuations will be significant.

Exchange Rate Risks and Exchange Controls

The principal of, or any return on, Notes may be payable in, or determined by reference or indexed to, one or more specified currencies (including exchange rates and swap indices between currencies or currency units). For investors whose financial activities are denominated principally in a currency or currency unit (the “**Investor’s Currency**”) other than the specified currency in which the related Notes are denominated, or where principal or return in respect of Notes is payable by reference to the value of one or more specified currencies other than by reference solely to the Investor’s Currency, an investment in such Notes entails significant risks that are not associated with a similar investment in a debt security denominated and payable in such Investor’s Currency. Such risks include, without limitation, the possibility of significant fluctuations in the rate of exchange between the applicable specified currency and the Investor’s Currency and the possibility of the imposition or modification of exchange controls by authorities with jurisdiction over such

specified currency or the Investor's Currency. Such risks generally depend on a number of factors, including financial, economic and political events over which the Issuer has no control.

Appreciation in the value of the Investor's Currency relative to the value of the applicable specified currency would result in a decrease in the Investor's Currency-equivalent yield on a Note denominated, or the principal of or return on which is payable, in such specified currency, in the Investor's Currency-equivalent value of the principal of such Note payable at maturity (if any) and generally in the Investor's Currency-equivalent market value of such Note. In addition, depending on the specific terms of a Note denominated in, or the payment of which is determined by reference to the value of, one or more specified currencies (other than solely the Investor's Currency), indices (including exchange rates and swap indices between currencies or currency units) or formulas, fluctuations in exchange rates relating to any of the currencies or currency units involved could result in a decrease in the effective yield on such Note and, in certain circumstances, could result in a loss of all or a substantial portion of the principal of such Note to the investor.

Government and monetary authorities have imposed from time to time, and may in the future impose, exchange controls that could affect exchange rates, as well as the availability, of the specified currency in which a Note is payable at the time of payment of the principal or return in respect of such Note.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this section, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Market Value of the Notes

The market value of the Notes will be affected by the creditworthiness of the Issuer, and/or that of the Group and a number of additional factors, including the value of the reference assets or an index, including, but not limited to, the volatility of the reference assets or an index, or the dividend on the securities taken up in the index, market interest and yield rates and the time remaining to the maturity date.

The value of the Notes, the reference assets or the index depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes, the reference assets, the securities taken up in the index, or the index are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser. The historical market prices of the reference assets or an index should not be taken as an indication of the reference assets' or an index's future performance during the term of any Note.

Specific French insolvency law provision regarding the rights of holders of debt securities

Under French insolvency law as amended by law n°2010-1249 dated 22 October 2010 applicable as from 1 March 2011, holders of debt securities are automatically grouped into a single assembly of holders (the "Assembly") in order to defend their common interests if a preservation (*procédure de sauvegarde*), an accelerated financial preservation procedure (*procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the Issuer. The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes), whether or not under a debt issuance programme (EMTN) and regardless of their governing law. The Assembly deliberates on the proposed safeguard plan (*projet de plan de sauvegarde*), draft accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or draft judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the Noteholders) by rescheduling due payments and/or partially or totally writing off receivables in form of debt securities;
- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into securities that give or may give right to share capital.

Decisions of the Assembly will be taken by a two-third majority (calculated as a proportion of the debt securities held by the holders attending such Assembly or represented thereat). No quorum is required to convoke the Assembly.

For the avoidance of doubt, the provisions relating to the Representation of the Noteholders described in this Base Prospectus will not be applicable to the extent they are not in compliance with compulsory insolvency law provisions that apply in these circumstances.

1.2 Risks related to the structure of a particular issue of Notes

The Programme allows for different types of Notes to be issued. Accordingly, each Tranche of Notes may carry varying risks for potential investors depending on the specific features of such Notes such as, inter alia, the provisions for computation of periodic interest payments, if any, redemption and issue price.

Optional Redemption

Any optional redemption feature where the Issuer is given the right to redeem the Notes early might negatively affect the market value of such Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. Furthermore, since the Issuer may be expected to redeem the Notes when prevailing interest rates are relatively low, an investor might not be able to reinvest the redemption proceeds at an effective interest rate as high as the return that would have been received on such Notes had they not been redeemed.

Fixed Rate Notes

Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes.

Floating Rate Notes

Investment in Notes which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate.

Inverse Floating Rate Notes

Inverse floating rate Notes have an interest rate equal to a fixed base rate minus a rate based upon a reference rate. The market value of such Notes typically is more volatile than the market value of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse

floating rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/ Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Index-linked Notes

Index-linked Notes are debt securities which do not provide for predetermined redemption amounts and/or interest payments but amounts due in respect of principal and/or interest will be dependent upon the performance of an index, which itself may contain substantial credit, interest rate or other risks. The amount of principal and/or interest, if any, payable by the Issuer might be substantially less than the issue price or, as the case may be, the purchase price invested by the Noteholder and may even be zero in which case the Noteholder may lose its entire investment.

Index-linked Notes are not in any way sponsored, endorsed, sold or promoted by the index sponsor or the respective licensor of the index and such index sponsor or licensor makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the index and/or the figure at which the index stands at any particular time. Each index is determined, composed and calculated by its respective index sponsor or licensor, without regard to the Issuer or the Notes. None of the index sponsors or licensors is responsible for or has participated in the determination of the timing of, prices of, or quantities of the Notes to be issued or in the determination or calculation of the equation by which the Notes settle into cash. None of the index sponsors or licensors has any obligation or liability in connection with the administration, marketing or trading of the Notes. The index sponsor or licensor of an index has no responsibility for any calculation agency adjustment made for the index.

None of the Issuer, the Dealer(s) or any of their respective affiliates makes any representation as to an index. Any of such persons may have acquired, or during the term of the Notes may acquire, non-public information with respect to an index that is or may be material in the context of index-linked Notes. The issue of index-linked Notes will not create any obligation on the part of any such persons to disclose to the Noteholder or any other party such information (whether or not confidential).

Partly Paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

Structured Notes

An investment in Notes, the premium and/or the interest on or principal of which is determined by reference to one or more values of currencies, commodities, interest rates or other indices or formulae, either directly or inversely, may entail significant risks not associated with similar investments in a conventional debt security, including the risks that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that an investor may lose the value of its entire investment or part of it, as the case may be. Neither the current nor the historical value of the relevant currencies, commodities, interest rates or other indices or formulae should be taken as an indication of future performance of such currencies, commodities, interest rates or other indices or formulae during the term of any Notes.

The prices at which Zero Coupon Notes, as well as other Notes issued at a substantial discount from their principal amount payable at maturity, trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than do the prices for conventional interest-bearing securities of comparable maturities.

2 Risk Factors Relating to the Issuer and its Operations

The ability of the Issuer to meet its obligations under the Notes will be ultimately dependent on its financial situation. The Group conducts its business in an environment subject to major changes and this creates numerous risks, some of which are beyond its control.

The Risk Factors relating to the Issuer and its operations are set out in pages 141 to 160 of the 2009 GDF SUEZ Reference Document as incorporated by reference in this Base Prospectus (as defined in the section “**Documents Incorporated by Reference**” of this Base Prospectus). In addition, prospective investors are invited to consider the following additional risk factor:

Risks relating to the combination with International Power plc

Following completion of the consultation process with the Issuer’s employee representative bodies, the boards of the Issuer and International Power plc have entered into a merger deed and other related agreements on 13 October 2010 detailing the terms and conditions of a proposed combination of International Power plc and the Issuer’s Energy International Business Areas and certain assets in the UK and Turkey (the « **Combination** »). The Combination is expected to be completed by the end of 2010 or early 2011, but remains conditional on, among other things, the approval of International Power plc shareholders and the approval of competition authorities and other regulatory bodies.

In addition to general risk factor relating to external growth contained in the 2009 GDF SUEZ Reference Document and incorporated by reference herein, there are risks relating the Combination which include:

- Failure to obtain shareholders, competition authorities and/or regulatory approvals, and more generally non-completion of the Combination;
- Integration difficulties, failure to achieve expected benefits and synergies, involvement of managers of acquired companies and departure of key employees;
- Valuation of liabilities or expected earnings could arise at the end of the acquisition process;
- Rating downgrade of the Issuer further to the completion of the Combination.

Please refer to the section entitled “Recent Developments” for more information about the Combination.

	1. All payments of principal and interest by or on behalf of the Issuer in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax,

unless such withholding or deduction is required by law.

2. Notes issued under the Programme (except Notes that are to be assimilated (*assimilables*) and form a single series with Notes issued before 1 March 2010 and having the benefit of Article 131 *quater* of the French *Code général des impôts*) fall under the new French withholding tax regime pursuant to the French *loi de finances rectificative pour 2009 no. 3* (n°2009-1674 dated 30 December 2009), applicable as from 1 March 2010 (the “**Law**”). Payments of interest and other revenues made by the Issuer on such Notes will not be subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *Code général des impôts* (a “**Non-Cooperative State**”). If such payments under the Notes are made in a Non-Cooperative State, a 50 per cent. withholding tax will be applicable (subject to certain exceptions described below and the more favourable provisions of any applicable double tax treaty) by virtue of Article 125 A III of the French *Code général des impôts*.

Furthermore, according to Article 238 A of the French *Code général des impôts* interest and other revenues on such Notes will no longer be deductible from the Issuer's taxable income, as from the fiscal years starting on or after 1 January 2011, if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State. Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Article 109 of the French *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* of the French *Code général des impôts*, at a rate of 25 per cent. or 50 per cent., subject to the more favourable provisions of an applicable double tax treaty.

Notwithstanding the foregoing, the Law provides that neither the 50 per cent. withholding tax set out under Article 125 A III of the French *Code général des impôts* nor the non-deductibility provided under Article 238 A of the French *Code général des impôts* will apply in respect of a particular issue of Notes if the Issuer can prove that the principal purpose and effect of such issue of Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the “**Exception**”). Pursuant to the ruling (*rescrit*) 2010/11 (FP and FE) of the French tax authorities dated 22 February 2010, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the

purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L.411-1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an “equivalent offer” means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

3. Interest and other revenues on Notes which are to be assimilated (*assimilables*) and form a single series with Notes issued and having the benefit of Article 131 *quater* of the French *Code général des impôts* prior to 1 March 2010, will continue to be exempt from the withholding tax set out under Article 125 A III of the French *Code général des impôts*.

In addition, interest and other revenues paid by the Issuer on Notes which are to be assimilated (*assimilables*) and form a single series with Notes issued prior to 1 March 2010 will not be subject to the deductibility exclusion of Article 238 A of the French *Code général des impôts* and will not be subject to the withholding tax set out in Article 119 *bis* of the French *Code général des impôts* solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

See “**Terms and Conditions of the Notes - Taxation**”.

Interest Periods and Interest Rates

The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. The

	use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms.
Fixed Rate Notes	Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Final Terms.
Floating Rate Notes	Floating Rate Notes will bear interest determined separately for each Series as follows: <ul style="list-style-type: none"> (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. or (ii) by reference to LIBOR, LIBID, LIMEAN or EURIBOR (or such other benchmark as may be specified in the relevant Final Terms), in each case as adjusted for any applicable margin. Interest periods will be specified in the relevant Final Terms.
Zero Coupon Notes	Zero Coupon Notes may be issued at their nominal amount or at a discount to it and will not bear interest.
Dual Currency Notes	Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies, and based on such rates of exchange, as may be specified in the relevant Final Terms.
Index Linked Notes	Payments of principal in respect of Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula as may be specified in the relevant Final Terms.
Other Notes	Terms applicable to high interest Notes, low interest Notes, step-up Notes, step-down Notes, reverse dual currency Notes, optional dual currency Notes, Partly Paid Notes and any other type of Notes that the Issuer and any Dealer or Dealers may agree to issue under the Programme will be set out in the relevant Final Terms.
Redenomination	Notes issued in the currency of any Member State of the EU which will participate in the single currency of the European and Economic Monetary Union may be redenominated into euro, all as more fully provided in “ Terms and Conditions of the Notes - Form, Denomination, Title and Redenomination of the Notes ” below.
Consolidation	Notes of one Series may be consolidated with Notes of another Series as more fully provided in “ Terms and Conditions of the Notes - Further Issues and Consolidation ”.
Governing Law	The Notes, and all non-contractual obligations arising out of or in connection with them, are governed by French law.

its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

(d) Redenomination

- (i) The Issuer may (if so specified in the relevant Final Terms), on any Interest Payment Date, without the consent of the holder of any Note, Receipt, Coupon or Talon, by giving at least 30 days’ notice in accordance with Condition 16 and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the single currency of the European Economic and Monetary Union (as provided in the Treaty establishing the European Community, as amended from time to time (the “**Treaty**”) or events have occurred which have substantially the same effects (in either case, “**EMU**”), redenominate all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the “**Redenomination Date**”.
- (ii) Unless otherwise specified in the relevant Final Terms, the redenomination of the Notes pursuant to Condition 1(e)(i) shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to Article 123 (4) of the Treaty and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 16. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euro on the Redenomination Date in the manner notified to Noteholders by the Issuer.
- (iii) Upon redenomination of the Notes, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to euro.
- (iv) Unless otherwise specified in the relevant Final Terms, the Issuer may, with the prior approval of the Redenomination Agent and the Consolidation Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 14, without the consent of the holder of any Note, Receipt, Coupon or Talon, make any changes or additions to these Conditions or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes

- (v) Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Receipt, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euro or any currency conversion or rounding effected in connection therewith.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the relevant Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Final Terms;
- (b) the designated Maturity is a period specified in the relevant Final Terms; and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the relevant Final Terms.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following:

- (a) if the Primary Source for Floating Rate is a Page, subject as provided below, the Rate of Interest shall be:
 - (i) the Relevant Rate (where such Relevant Rate on such Page is a composite quotation or is customarily supplied by one entity); or
 - (ii) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Page,

in each case appearing on such Page at the Relevant Time on the Interest Determination Date;

- (b) if the Primary Source for the Floating Rate is Reference Banks or if sub-paragraph (a)(i) applies and no Relevant Rate appears on the Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (a)(ii) applies and fewer than two Relevant Rates appear on the Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Rate of Interest shall

be the arithmetic mean of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent; and

- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Relevant Rates, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Benchmark) in respect of a Representative Amount of the Specified Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Specified Currency or, if the Specified Currency is euro, in the euro-zone as selected by the Calculation Agent (the “**Principal Financial Centre**”) are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date for a period equivalent to the Specified Duration (I) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are so quoting to leading banks in Europe) (II) to leading banks carrying on business in the Principal Financial Centre; except that, if fewer than two of such banks are so quoting to leading banks in the Principal Financial Centre, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).
- (iv) Rate of Interest for Index Linked Interest Notes: The Rate of Interest in respect of Index Linked Interest Notes for each Interest Accrual Period shall be determined in the manner specified in the relevant Final Terms and interest will accrue by reference to an Index or Formula as specified in the relevant Final Terms.
- (d) **Zero Coupon Notes:** Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(e)(i)).
- (e) **Dual Currency Notes:** In the case of Dual Currency Notes, if the rate or amount of interest falls to be determined by reference to a Rate of Exchange or a method of calculating, a Rate of Exchange, the rate or amount of interest payable shall be determined in the manner specified in the relevant Final Terms.
- (f) **Partly Paid Notes:** In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the relevant Final Terms.
- (g) **Accrual of Interest:** Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, on such due date or (ii) in the case of Materialised Notes, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date.

(h) Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts, Rate Multipliers and Rounding:

- (i) If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the relevant Final Terms, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.

(i) Calculations: The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

(j) Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Optional Redemption Amounts, Early Redemption Amounts and Instalment Amounts: As soon as practicable after the relevant time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Optional Redemption Amount, Early Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Optional Redemption Amount, Early Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed and admitted to trading on a Regulated Market or listed on any other stock exchange and the rules of such Regulated Market or stock exchange so require, such Regulated Market or stock exchange as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(c)(ii),

the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

- (k) **Calculation Agent and Reference Banks:** The Issuer shall procure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any Note is outstanding (as defined in the Agency Agreement). If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer shall appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Paris office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

6 Redemption, Purchase and Options

- (a) **Final Redemption:** Unless previously redeemed, purchased and cancelled as provided below or its maturity is extended pursuant to any option provided by the relevant Final Terms including any Issuer's option in accordance with Condition 6(c) or any Noteholders' option in accordance with Condition 6(d), each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which, unless otherwise provided, is its nominal amount) or, in the case of a Note falling within Condition 6(b) below, its final Instalment Amount.
- (b) **Redemption by Instalments and Final Redemption:** Unless previously redeemed, purchased and cancelled as provided in this Condition 6 or the relevant Instalment Date (being one of the dates so specified in the relevant Final Terms) is extended pursuant to any Issuer's or Noteholder's option in accordance with Condition 6(c) or (6)(d), each Note that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount specified in the relevant Final Terms. The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused (i) in the case of Dematerialised Notes, on the due date for such payment or (ii) in the case of Materialised Notes, on presentation of the related Receipt, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (c) **Redemption at the Option of the Issuer, Exercise of Issuer's Options and Partial Redemption:** If a Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than 15 nor

more than 30 days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem, or exercise any Issuer's option (as may be described) in relation to, all or, if so provided, some, of the Notes on any Optional Redemption Date or Option Exercise Date, as the case may be. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption (including, where applicable, any arrears of interest), if any. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's option in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Bearer Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or stock exchange requirements.

In the case of a partial redemption of or a partial exercise of an Issuer's option in respect of Dematerialised Notes, the redemption may be effected, at the option of the Issuer, either (i) by reducing the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed or (ii) by redeeming in full some only of such Dematerialised Notes and, in such latter case, the choice between those Dematerialised Notes that will be fully redeemed and those Dematerialised Notes of any Series that will not be redeemed shall be made in accordance with Article R.213-16 of the *Code monétaire et financier* and the provisions of the relevant Final Terms, subject to compliance with any other applicable laws and Regulated Market or other stock exchange requirements.

So long as the Notes are listed and admitted to trading on Euronext Paris and the rules of that Stock Exchange so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in accordance with Articles 221-3 and 221-4 of the General Regulations (*Règlement Général*) of the *Autorité des marchés financiers* and on the website of any other competent authority and/or Regulated Market of the EEA Member State where the Notes are listed and admitted to trading, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

- (d) **Redemption at the Option of Noteholders and Exercise of Noteholders' Options:** If a Put Option is specified in the relevant Final Terms, the Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued to the date fixed for redemption including, where applicable, any arrears of interest.

To exercise such option or any other Noteholders' option that may be set out in the relevant Final Terms (which must be exercised on an Option Exercise Date) the Noteholder must deposit with any Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form obtained from any Paying Agent, within the notice period. In the case of Materialised Bearer Notes, the Exercise Notice shall have attached to it such Notes (together with all unmatured Receipts

and Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Fiscal Agent and the Paying Agent specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred may be withdrawn without the prior consent of the Issuer.

(e) Early Redemption:

(i) Zero Coupon Notes:

(A) The Early Redemption Amount payable in respect of any Zero Coupon Note, the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 6(f) or Condition 6(j) or upon it becoming due and payable as provided in Condition 9 shall be the Amortised Nominal Amount (calculated as provided below) of such Note unless otherwise specified in the relevant Final Terms.

(B) Subject to the provisions of sub-paragraph (C) below, the Amortised Nominal Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.

(C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 6(f) or Condition 6(j) or upon it becoming due and payable as provided in Condition 9 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Amortised Nominal Amount becomes due and payable were the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 5(d). Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown in the relevant Final Terms.

(ii) Other Notes: The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 6(f) or Condition 6(j), or upon it becoming due and payable as provided in Condition 9 shall be the Final Redemption Amount together with interest accrued to the date fixed for redemption (including, where applicable, any arrears of interest) unless otherwise specified in the relevant Final Terms.

(f) Redemption for Taxation Reasons

(i) If, by reason of any change in, or any change in the official application or interpretation of, French law becoming effective after the Issue Date, the Issuer [or, as the case may be, the Guarantor (in respect of the Guarantee),] would on the occasion of the next payment of principal or interest due in respect of the Notes, not be able to make such payment without

having to pay Additional Amounts as specified and defined under Condition 8 below, the Issuer may, at its option, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, subject to having given not more than 45 nor less than 30 days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 16, redeem all, but not some only, of the Notes at their Early Redemption Amount together with, unless otherwise specified in the Final Terms, any interest accrued to the date set for redemption (including, where applicable, any arrears of interest) provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer [or the Guarantor, as the case may be,] could make payment of principal and interest without withholding for such taxes.

- (ii) If the Issuer [or, as the case may be, the Guarantor (in respect of the Guarantee),] would on the next payment of principal or interest in respect of the Notes be prevented by French law from making payment to the Noteholders or, if applicable, Couponholders of the full amounts then due and payable, notwithstanding the undertaking to pay Additional Amounts contained in Condition 8 below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven days' prior notice to the Noteholders in accordance with Condition 15, redeem all, but not some only, of the Notes then outstanding at their Redemption Amount together with, unless otherwise specified in the Final Terms, any interest accrued to the date set for redemption (including, where applicable, any arrears of interest) on the latest practicable Interest Payment Date on which the Issuer [or the Guarantor, as the case may be,] could make payment of the full amount then due and payable in respect of the Notes or, if applicable, Receipts or Coupons, or, if that date is passed, as soon as practicable thereafter.
- (g) **Partly Paid Notes:** Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the provisions specified in the relevant Final Terms.
- (h) **Purchases:** The Issuer shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price subject to the applicable laws and regulations.
- (i) **Cancellation:** All Notes purchased by or on behalf of the Issuer may, subject to applicable laws and regulations, at the option of the Issuer, either (i) be kept by or on behalf of the Issuer, or (ii) be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Bearer Notes, by surrendering the Temporary Global Certificate and the Definitive Materialised Bearer Notes in question together with all unmatured Receipts and Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to such Dematerialised Notes and, in the case of Materialised Notes, all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer [and the Guarantor] in respect of any such Notes shall be discharged.
- (j) **Illegality:** If, by reason of any change in, or any change in the official application of French law becoming effective after the Issue Date, it will become unlawful (i) for the Issuer to perform or comply with one or more of its obligations under the Notes, [or (ii) for the Guarantor to perform or comply

with one or more of its obligations under the Guarantee] the Issuer will, subject to having given not more than 45 nor less than 30 days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption (including, where applicable, any arrears of interest).

(k) Redemption or repurchase at the option of the Noteholders in case of Change of Control:

If a Put Option in case of Change of Control (as defined below) is specified in the relevant Final Terms, and if a Put Event (as defined below) occurs, each Noteholder will have the option to require the Issuer to redeem or repurchase all or part of the Notes held by such Noteholder on the Put Date (as defined below) at their principal amount together with interest accrued up to but excluding such date of redemption or repurchase. Such option (the **"Put Option in case of Change of Control"**) shall operate as set out below.

(A) A **"Put Event"** will be deemed to occur if:

- (i) Any person or group of persons acting in concert or any person or persons acting on behalf of any such person(s) (the **"Relevant Persons"**) (a) acquires directly or indirectly more than 50% of the total voting rights or of the issued ordinary share capital of GDF SUEZ (or any successor entity), (b) acquires directly or indirectly a number of shares in the ordinary share capital of GDF SUEZ carrying more than 40% of the voting rights exercisable in general meetings of GDF SUEZ and no other shareholder of such entity, directly or indirectly, acting alone or in concert with others, holds a number of shares carrying a percentage of the voting rights exercisable in such general meetings which is higher than the percentage of voting rights attached to the number of shares held directly or indirectly by such Relevant Person(s) (any such event being a **"Change of Control"**); and
- (ii) on the date notified to the Noteholders by the Issuer in accordance with Condition 16 (the **"Relevant Announcement Date"**) that is the earlier of (x) the date of the first public announcement of the Change of Control; and (y) the date of the earliest Relevant Potential Change of Control Announcement, either the Notes or the senior unsecured long-term debt of GDF SUEZ carries from any of Moody's Investors Service Limited (**"Moody's"**), Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. (**"S&P"**), or Fitch Ratings (**"Fitch"**) or any of their respective successors to the rating business thereof, or any other rating agency (each a **"Substitute Rating Agency"**) of international standing (each, a **"Rating Agency"**):
 - (x) an investment grade credit rating (Baa3/BBB-/BBB-, or equivalent, or better), and such rating from any rating agency is, within the Change of Control Period either downgraded to a non-investment grade credit rating (Ba1/BB+/BB+, or equivalent, or worse) or withdrawn and is not, within the Change of Control Period subsequently (in the case of a downgrade) upgraded or (in the case of a withdrawal) reinstated to an investment grade credit rating by such Rating Agency; or
 - (y) a non-investment grade credit rating (Ba1/BB+/BB+, or equivalent, or worse), and such rating from any Rating Agency is within the Change of Control Period either downgraded by one or more notches (for illustration, Ba1/BB+/BB+ to Ba2/BB/BB being one notch) or withdrawn and is not within the Change of Control Period subsequently (in the case of a downgrade) upgraded or (in the case

of a withdrawal) reinstated to its earlier credit rating or better by such Rating Agency;

provided that, for the avoidance of doubt,

1. any such decision of the relevant Rating Agency referred to in (x) or (y) above shall not be deemed to have occurred in respect of a particular Change of Control if such Rating Agency does not publicly announce or confirm that such decision was the result, in whole or in part, of any event or circumstance comprised in or arising as a result of, or in respect of, the applicable Change of Control; and
 2. if at the time of the occurrence of a Change of Control neither the Notes nor the senior unsecured long-term debt of GDF SUEZ is rated by a Rating Agency, and no Rating Agency assigns within the Change of Control Period an investment grade rating to the Notes, a Put Event will be deemed to have occurred.
- (B) Promptly upon the Issuer [or the Guarantor] becoming aware that a Put Event has occurred the Issuer shall give notice (a “**Put Event Notice**”) to the Noteholders in accordance with Condition 15 specifying the nature of the Put Event, the circumstances giving rise to it and the procedure for exercising the option contained in this Condition.
- (C) To exercise the Put Option in case of Change of Control to require redemption or repurchase of the Notes, any Noteholder must transfer or cause to be transferred the Notes to be so redeemed or repurchased to the account of any Paying Agent and deliver to the Issuer a duly completed redemption or repurchase notice in writing (a “**Change of Control Put Notice**”), in which such Noteholder will specify a bank account to which payment is to be made under this paragraph, within the period (the “**Put Period**”) of 45 days after a Put Event Notice is given (except where (i) the Noteholder gives the Issuer written notice of the occurrence of a Put Event of which it is aware and (ii) the Issuer fails to give a Put Event Notice to the Noteholders by close of business of the third Business Day after the receipt of such notice from the Noteholder, in which case the Put Period will start from such third Business Day and will end on the day falling 45 days thereafter).

A Change of Control Put Notice once given shall be irrevocable. The Issuer shall redeem or repurchase the Notes in respect of which the Put Option in case of Change of Control has been validly exercised as provided above and subject to the transfer of the Notes, on the date which is the fifth Business Day following the end of the Put Period (the “**Put Date**”). Payment in respect of such Notes will be made by transfer to the bank account specified in the Change of Control Put Notice.

- (D) For the purposes of this Condition:

“**Change of Control Period**” means the period commencing on the Relevant Announcement Date, and ending 180 days (inclusive) after the occurrence of the relevant Change of Control (or such longer period for which the Notes or the senior unsecured long-term debt of GDF SUEZ are under consideration (such consideration having been announced publicly within the period ending 120 days after the occurrence of the relevant Change of Control) for rating review or, as the case may be, rating by, a Rating Agency, such period not to exceed 60 days after the public announcement of such consideration);

“**Relevant Potential Change of Control Announcement**” means any public announcement or statement by the Issuer, GDF SUEZ or any Relevant Person thereto relating to any potential Change of Control.

7 Payments and Talons

- (a) **Dematerialised Notes:** Payments of principal and interest (including, for the avoidance of doubt, any arrears of interest, where applicable) in respect of Dematerialised Notes shall (in the case of Dematerialised Notes in bearer form or administered registered form) be made by transfer to the account denominated in the relevant currency of the relevant Euroclear France Account Holders for the benefit of the Noteholders or (in the case of Dematerialised Notes in fully registered form) to an account denominated in the relevant currency with a Bank (as defined below) designated by the Noteholders. All payments validly made to such Euroclear France Account Holders will be an effective discharge of the Issuer in respect of such payments.
- (b) **Materialised Bearer Notes:** Payments of principal and interest (including, for the avoidance of doubt, any arrears of interest, where applicable) in respect of Materialised Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment Amounts other than on the due date for redemption and provided that the Receipt is presented for payment together with its relative Note), Materialised Bearer Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(vi)) or Coupons (in the case of interest, save as specified in Condition 7(f)(vi)), as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the Noteholder, by transfer to an account denominated in such currency with, a Bank. No payments in respect of Materialised Bearer Notes shall be made by transfer to an account in, or mailed to an address in, the United States.
- “**Bank**” means a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET System.
- (c) **Payments in the United States:** Notwithstanding the foregoing, if any Materialised Bearer Notes are denominated in U.S. Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer [or the Guarantor, if payment is being made under the Guarantee].
- (d) **Payments Subject to Fiscal Laws:** All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment but without prejudice to the provisions of Condition 8. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.
- (e) **Appointment of Agents:** The Fiscal Agent, the Paying Agents, the Calculation Agent, the Registration Agent, the Redenomination Agent and the Consolidation Agent initially appointed under the Agency Agreement and their respective specified offices are listed below. The Fiscal Agent, the Paying Agents, the Registration Agent, the Redenomination Agent and the Consolidation Agent act solely as agents of

each Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any Noteholder or Couponholder. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Registration Agent, the Redenomination Agent and the Consolidation Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) in the case of Dematerialised Notes in fully registered form a Registration Agent, (v) Paying Agents having specified offices in at least two major European cities, (vi) in the case of Materialised Notes, a Paying Agent in a Member State of the EU that will not be obliged to withhold or deduct tax pursuant to the European Council Directive 2003/48/EC or any other EU Directive on the taxation of savings income (which may be any of the Paying Agents referred to in (v) above) implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000, or pursuant to any law implementing or complying with, or introduced in order to conform to, such Directive and (vii) such other agents as may be required by the rules of any other stock exchange on which the Notes may be listed.

In addition, the Issuer [(or the Guarantor, if payment is being made under the Guarantee)] shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Bearer Notes denominated in U.S. Dollars in the circumstances described in paragraph (c) above.

On a redenomination of the Notes of any Series pursuant to Condition 1(d) with a view to consolidating such Notes with one or more other Series of Notes, in accordance with Condition 14, the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such Notes and such other Series of Notes to be so consolidated with such Notes.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 15.

(f) Unmatured Coupons and Receipts and unexchanged Talons:

- (i) Unless Materialised Bearer Notes provide that the relative Coupons are to become void upon the due date for redemption of those Notes, Materialised Bearer Notes should be surrendered for payment together with all unexpired Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unexpired Coupon (together, where applicable, with the amount of any arrears of interest corresponding to such Coupon) (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon (together, where applicable, with the amount of any arrears of interest corresponding to such Coupon) that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Amortised Nominal Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 10).
- (ii) If Materialised Bearer Notes so provide, upon the due date for redemption of any such Materialised Bearer Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.

- (iii) Upon the due date for redemption of any Materialised Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
 - (iv) Upon the due date for redemption of any Materialised Bearer Note that is redeemable in instalments, all Receipts relating to such Materialised Bearer Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
 - (v) Where any Materialised Bearer Note that provides that the relative unmatured Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmatured Coupons, and where any such Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer [and the Guarantor, as the case may be,] may require.
 - (vi) If the due date for redemption of any Materialised Bearer Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, (including, for the avoidance of doubt, any arrears of interest if applicable) shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Materialised Bearer Note. Interest accrued on a Materialised Bearer Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Materialised Bearer Notes.
- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 10).
- (h) **Non-Business Days:** If any date for payment in respect of any Note, Receipt or Coupon is not a business day, the Noteholder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, “**business day**” means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France is open for business or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) on which banks and foreign exchange markets are open for business in such jurisdictions as shall be specified as “**Financial Centres**” in the relevant Final Terms and (C) (i) in the case of a payment in a currency other than euro, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in euro, which is a TARGET Business Day.

8 Taxation

- (a) **Taxation:** All payments of principal, interest and other revenues by or on behalf of the Issuer in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

- (b) **Additional amounts:** If applicable law should require that payments of principal or interest made by the Issuer in respect of any Note, Receipt or Coupon be subject to deduction or withholding in respect of any present or future taxes or duties whatsoever levied by the Republic of France, the Issuer [or as the case may be, the Guarantor in the case of payments under the Guarantee,] will, to the fullest extent then permitted by law, pay such additional amounts (“**Additional Amounts**”) as shall result in receipt by the Noteholders or, if applicable, the Receiptholders and the Couponholders, as the case may be, of such amounts as would have been received by them had no such withholding or deduction been required, except that no such Additional Amounts shall be payable with respect to any Note, Receipt or Coupon, as the case may be:
- (i) **Other connection:** to, or to a third party on behalf of, a Noteholder who is (i) entitled to avoid such deduction or withholding by making a declaration of non-residence or other similar claim for exemption to the financial intermediary, the Issuer or the competent tax authority; or (ii) liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his having some connection with the Republic of France other than the mere holding of the Note, Receipt or Coupon; or
 - (ii) **Presentation more than 30 days after the Relevant Date:** presented for payment more than 30 days after the Relevant Date except to the extent that the Noteholder would have been entitled to such Additional Amounts on presenting it for payment on the thirtieth such day; or
 - (iii) **Payment to individuals:** where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any other EU Directive implementing the conclusions of the ECOFIN Council Meeting of 26-27 November 2000 on the taxation of savings income, or any law implementing or complying with, or introduced in order to conform to, such Directive; or
 - (iv) **Payment by another Paying Agent:** presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the EU.

As used in these Conditions, “**Relevant Date**” in respect of any Note, Receipt or Coupon means the date on which payment in respect of it first becomes due (and, for the avoidance of doubt, in the case of arrears of interest, references to “**becomes due**” shall be interpreted in accordance with the provisions of Condition 5(g) or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or, in the case of Materialised Notes (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note, Receipt or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Nominal Amounts and all other amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts (including, for the avoidance of doubt, all arrears of interest) payable pursuant to Condition 5 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any Additional Amounts that may be payable under this Condition.

- (c) **Supply of Information:** Each holder of Notes shall be responsible for supplying to the Paying Agent, in a reasonable and timely manner, any information as may be required in order to comply with the

identification and reporting obligations imposed on it by the European Council Directive 2003/48/EC or any other European Directive implementing the conclusions of the ECOFIN Council Meeting dated 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to such Directive.

9 Events of Default

The following will be Events of Default (each, an “**Event of Default**” with respect to any Note):

- (a) the Issuer defaults in any payment when due of principal or interest on any Note [and the Guarantor defaults in any payment when due under the Guarantee] (including the payment of any Additional Amounts pursuant to the provisions set forth under “**Taxation**” above); or
- (b) there is a default by the Issuer [or the Guarantor] in the due performance of any other provision of the Notes [or the Guarantee, as the case may be], and such default shall not have been cured within 30 Business Days (as defined in Condition 5(a)) after receipt by the Fiscal Agent of written notice of default given by the Representative upon request of the Noteholder; or
- (c) the Issuer [or the Guarantor] (i) shall fail to make one or more payments when due or within any applicable grace period on any indebtedness for money borrowed or guarantee of the indebtedness for money borrowed of another party in an aggregate principal amount of at least Euro 100,000,000 (or, in each case, the equivalent in another currency) and (ii) (other than where the due date for such defaulted payment is the stated maturity) such indebtedness shall have been accelerated;
- (d) the Issuer [or the Guarantor] (i) becomes insolvent or (ii) applies for or is subject to the appointment of a *mandataire ad hoc* under French bankruptcy law or (iii) has entered into a voluntary arrangement with its creditors (*procédure de conciliation ou procédure de sauvegarde*) or (iv) is subject to a judgment rendered for its judicial liquidation (*liquidation judiciaire*) or for a transfer of the whole or part of the business (*cession totale ou partielle de l'entreprise*) or (v) is subject to any analogous proceedings under any applicable law; or
- (e) the Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect].

Whenever an Event of Default shall have occurred and be continuing during seven calendar days, the acting Representative (as defined in Condition 11(a)) may, by written notice to the Issuer and the Fiscal Agent declare the Notes to be due and payable at their principal amount together with any accrued interest thereon, if any, upon the date that written notice is received by or on behalf of the Issuer and the Fiscal Agent. If an Event of Default specified in paragraph (d) occurs, the Notes will be immediately due and payable at their principal amount together with any accrued interest thereon, if any, without any declaration or other act on the part of any Noteholder.

10 Prescription

Claims against the Issuer for payment in respect of the Notes, Receipts and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

11 Representation of Noteholders

Except as otherwise provided by the relevant Final Terms, Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a masse (in each case, the “Masse”).

The Masse will be governed by the provisions of the French *Code de commerce* with the exception of Articles L.228-48, L.228-59, Article L.228-65 I 3° only in the case of the transfers of assets of GDF SUEZ to any fully consolidated subsidiary of the Group for regulatory purpose, the second sentence of Article L.228-65 II and Articles R. 228-67 and R. 228-69 subject to the following provisions:

(a) Legal Personality

The Masse will be a separate legal entity and will act in part through a representative (the “**Representative**”) and in part through a general meeting of the Noteholders (the “**General Meeting**”).

The Masse alone, to the exclusion of all individual Noteholders, shall exercise the common rights, actions and benefits which now or in the future may accrue respectively with respect to the Notes.

(b) Representative

The office of Representative may be conferred on a person of any nationality. However, the following persons may not be chosen as Representatives:

- (i) the Issuer, the members of its Management Committee (*Comité de Gestion*), its Board of Directors (*Conseil d'Administration*), its general managers (*directeurs généraux*), its statutory auditors, or its employees as well as their ascendants, descendants and spouse; or
- (ii) companies guaranteeing all or part of the obligations of the Issuer, their respective managers (gérants), general managers (*directeurs généraux*), members of their Board of Directors, Executive Board (Directoire), or Supervisory Board (*Conseil de Surveillance*), their statutory auditors, or employees as well as their ascendants, descendants and spouse; or
- (iii) companies holding 10% or more of the share capital of the Issuer or companies having 10% or more of their share capital held by the Issuer; or persons to whom the practice of banker is forbidden or who have been deprived of the right of directing, administering or managing an enterprise in whatever capacity; or
- (iv) persons to whom the practice of banker is forbidden or who have been deprived of the right of directing, administering or managing an enterprise in whatever capacity.

The names and addresses of the initial Representative of the Masse and its alternate will be set out in the relevant Final Terms. The Representative appointed in respect of the first Tranche of any Series of Notes will be the representative of the single Masse of all Tranches in such Series.

The Representative will be entitled to such remuneration in connection with its functions or duties as set out in the relevant Final Terms.

In the event of death, retirement or revocation of appointment of the Representative, such Representative will be replaced by another Representative. In the event of the death, retirement or revocation of appointment of the alternate Representative, an alternate will be elected by the General Meeting.

All interested parties will at all times have the right to obtain the names and addresses of the initial Representative and the alternate Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

(c) Powers of Representative

The Representative shall (in the absence of any decision to the contrary of the General Meeting) have the power to take all acts of management necessary in order to defend the common interests of the Noteholders.

All legal proceedings against the Noteholders or initiated by them, must be brought by or against the Representative.

The Representative may not be involved in the management of the affairs of the Issuer.

(d) General Meeting

A General Meeting may be held at any time, on convocation either by the Issuer or by the Representative. One or more Noteholders, holding together at least one-thirtieth of the principal amount of the Notes outstanding, may address to the Issuer and the Representative a demand for convocation of the General Meeting. If such General Meeting has not been convened within two months after such demand, the Noteholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under Condition 15 not less than 15 days prior to the date of such General Meeting. Each Noteholder has the right to participate in a General Meeting in person, by proxy, by correspondence or, if the *statuts* of the Issuer so specify, by videoconference or by any other means of telecommunication allowing the identification of participating Noteholders.

Each Note carries the right to one vote or, in the case of Notes issued with more than one Specified Denomination, one vote in respect of each multiple of the lowest Specified Denomination comprised in the principal amount of the Specified Denomination of such Note.

(e) Powers of the General Meetings

The General Meeting is empowered to deliberate on the dismissal and replacement of the Representative and the alternate Representative and also may act with respect to any other matter that relates to the common rights, actions and benefits which now or in the future may accrue with respect to the Notes, including authorising the Representative to act at law as plaintiff or defendant.

The General Meeting may further deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, it being specified, however, that the General Meeting may not increase the liabilities (*charges*) of the Noteholders, nor establish any unequal treatment between the Noteholders, nor to decide to convert Notes into shares.

General Meetings may deliberate validly on first convocation only if Noteholders present or represented hold at least one fifth of the principal amount of the Notes then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a simple majority of votes cast by Noteholders attending such General Meetings or represented thereat.

In accordance with Article R.228-71 of the French *Code de commerce*, the right of each Noteholder to participate in General Meetings will be evidenced by the entries in the books of the relevant Account

Holder of the name of such Noteholder as of 0:00, Paris time, on the third business day in Paris preceding the date set for the meeting of the relevant general assembly.

Decisions of General Meetings must be published in accordance with the provisions set forth in Condition 15.

(f) Information to Noteholders

Each Noteholder or Representative thereof will have the right, during the 15-day period preceding the holding of each General Meeting, to consult or make a copy of the text of the resolutions which will be proposed and of the reports which will be presented at the General Meeting, all of which will be available for inspection by the relevant Noteholders at the registered office of the Issuer, at the specified offices of any of the Paying Agents and at any other place specified in the notice of the General Meeting.

(g) Expenses

The Issuer will pay all expenses relating to the operation of the Masse, including expenses relating to the calling and holding of General Meetings and, more generally, all administrative expenses resolved upon by the General Meeting, it being expressly stipulated that no expenses may be imputed against interest payable under the Notes.

(h) Single Masse

The holders of Notes of the same Series, and the holders of Notes of any other Series which have been assimilated with the Notes of such first mentioned Series in accordance with Condition 14, shall, for the defence of their respective common interests, be grouped in a single Masse. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single Masse of all such Series.

For the avoidance of doubt, in this Condition 11, the term “outstanding” (as defined in the Agency Agreement) shall not include those Notes that are held by the Issuer and not cancelled, in accordance with Condition 6(i) above.

12 Modifications

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the relevant Final Terms in relation to such Series.

The Agency Agreement will be capable of amendment or waiver by the parties thereto, without the consent of Noteholders, Receiptholders or Couponholders, for the purpose of curing any ambiguity or of curing, correcting or supplementing any defective provision contained therein or in any manner which the parties to the Agency Agreement mutually deem necessary or desirable and which does not, in the reasonable opinion of the Issuer [and the Guarantor], adversely affect the interests of the Noteholders, Receiptholders or Couponholders.

13 Replacement of definitive Notes, Receipts, Coupons and Talons

If, in the case of any Materialised Bearer Notes, a Definitive Materialised Bearer Note, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and Regulated Market or other stock exchange regulations, at the specified office of the Fiscal Agent or such other Paying Agent as may from time to time be designated by the Issuer for the purpose and

notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Definitive Materialised Bearer Note, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Definitive Materialised Bearer Notes, Receipts, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Materialised Bearer Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

14 Further Issues and Consolidation

- (a) **Further Issues:** Unless otherwise specified in the relevant Final Terms, the Issuer may, with prior approval of the Redenomination and Consolidation Agents from time to time without the consent of the Noteholders, Receiptholders or Couponholders create and issue further Notes to be assimilated (*assimilées*) with the Notes provided such Notes and the further Notes carry rights identical in all respects (or in all respects save for the principal amount thereof and the first payment of interest in the relevant Final Terms) and that the terms of such Notes provide for such assimilation and references in these Conditions to “Notes” shall be construed accordingly.
- (b) **Consolidation:** The Issuer, with the prior approval of the Consolidation Agent, may from time to time on any Interest Payment Date occurring on or after the Redenomination Date on giving not less than 30 days’ prior notice to the Noteholders in accordance with Condition 15, without the consent of the Noteholders, Receiptholders or Couponholders, consolidate the Notes of one Series with the Notes of one or more other Series issued by it, whether or not originally issued in one of the European national currencies or in euro, provided such other Notes have been redenominated in Euro (if not originally denominated in euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

PRO-FORMA OF THE GUARANTEE OF GDF SUEZ

The following is the pro-forma of the guarantee that GDF SUEZ is expected to issue in connection with the substitution of Issuer provided under Condition 16 of the Terms and Conditions of the Notes:

The undersigned GDF SUEZ, a public limited liability company (a *société anonyme*) with a share capital of €2,249,175,953 whose head-office is located at 1, place Samuel de Champlain, 92400 Courbevoie, France, represented by [●], duly authorised to deliver this guarantee (the “**Guarantee**”) by [●] hereinafter referred to as the “**Guarantor**” or “**GDF SUEZ**”, hereby refers to:

- (A) The following Series of Euro Medium Term Notes (together, the “**Notes**”), which have been issued by GDF SUEZ under a Euro Medium Term Notes Programme in the aggregate nominal amount of Notes outstanding not exceeding at any time €25,000,000,000 (or the equivalent in any other currencies) (the “**Programme**”):

[briefly describe Series of Notes issued in respect of which the Issuer has been substituted];

- (B) the terms and conditions of the Notes (the “**Terms and Conditions**” or, with respect to a particular numbered condition, a “**Condition**”), and in particular Condition 16;
- (C) the amended and restated agency agreement (as amended or supplemented from time to time, the “**Agency Agreement**”) dated 22 November 2010 between GDF SUEZ as Issuer, Citibank, N.A., London Branch as fiscal agent and the other agents named in it;
- (D) the amended and restated dealer agreement (as amended or supplemented from time to time, the “**Dealer Agreement**” and together with the Agency Agreement, the “**Agreements**”) dated 22 November 2010 entered into between GDF SUEZ as Issuer and the Permanent Dealers and the Arranger,
- (E) the transfer by GDF SUEZ to [●], a company incorporated under the laws of [●], which as of the transfer date is a fully consolidated subsidiary of GDF SUEZ and whose head-office is located at [●] (the “**Substituted Issuer**”) of all (but not some only) of the rights, obligations and liabilities of GDF SUEZ under the Notes (including any further notes issued in accordance with Condition 14), Receipts and Coupons, as of [●].

The Guarantor hereby declares being fully aware of all the Terms and Conditions, the Agreements and the Programme.

In this context, the Guarantor hereby irrevocably and unconditionally guarantees up to a maximum outstanding principal amount of €[●], pursuant to an autonomous obligation (*garantie autonome*), to the holders of the Notes transferred to the Substituted Issuer (the “**Noteholders**”) the payment of interest and principal of the Notes. The Guarantor thus undertakes within two business days of first written demand to pay to the Noteholder an amount certified from time to time in a certificate (a “**Demand Certificate**”) that:

- (i) corresponds to interest on or principal of the Notes, or any other amount capable of falling due under the Notes (including any Additional Amounts required to be paid pursuant to the terms of the Notes); and
- (ii) has not been paid on the due date (whether at maturity, upon redemption by acceleration of maturity or otherwise) by the Substituted Issuer and remains due and owing on the date of the Demand Certificate.

This Guarantee is independent and constitutes an autonomous obligation (*garantie autonome*) of the Guarantor towards the Noteholders governed by Article 2321 of the French Civil Code and the Guarantor may

not invoke any defence that the Substituted Issuer could assert against a Noteholder including the unenforceability or invalidity of any obligation of the Substituted Issuer under the Notes. The Guarantor hereby waives any requirement that the Noteholders, in the event of any default in payment by the Substituted Issuer, first makes demand upon or seeks to enforce remedies against the Substituted Issuer before seeking to enforce this Guarantee. The Guarantor also waives any consent, extension (whether express or implied) or amendment of any of the terms of the Notes, any consolidation, merger, conveyance or transformation of the Substituted Issuer or any of its assets, or any other circumstance that might constitute a defence or discharge of a guarantor.

This Guarantee constitutes an unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks and will at all times rank (save for certain exceptions required to be preferred by law) equally with all other present or future unsecured and unsubordinated indebtedness, obligations and guarantees of the Guarantor.

So long as any of the Notes or, if applicable, any Receipts or Coupons relating to them, remains outstanding (as defined in the Agency Agreement), the Guarantor will not grant any mortgage (*hypothèque*), pledge or other form of security interest (*sûreté réelle*) which are not created over cash on any of its present or future tangible assets, intangible assets or revenues in each case for the benefit of holders of other negotiable bonds, notes or debt securities it guarantees and having an original maturity of more than one year, which are, or which are capable of being quoted, listed or ordinarily dealt with on any stock exchange, without granting the same ranking security to the Notes.

None of the above shall prevent the Guarantor from securing any present or future indebtedness for the benefit of holders of other negotiable bonds, notes or debt instruments it guarantees and which are, or are capable of being, quoted, listed, or ordinarily dealt with on any stock exchange, where such indebtedness is incurred for the purpose of, and the proceeds thereof are used in, (i) the purchase of an asset and such security is provided over or in respect of such asset or (ii) the refinancing of any indebtedness incurred for the purpose of (i) above, provided that the security is provided over or in respect of the same asset.

For so long as any amount remains payable in respect of the Notes, the Guarantor will not exercise any right of subrogation against the Substituted Issuer pursuant to this Guarantee or take any other action that would result in asserting claims of the Guarantor at the same time as claims of the Noteholders.

If the Guarantor should be compelled by law to make any deduction for or on account of any present or future taxes, duties, fees or imposts, of whatsoever nature, imposed or levied by French law, it shall pay, to the extent not prohibited by French law, such Additional Amounts as may be necessary in order that the Noteholders receive, after such deduction, the amount provided in such Notes to be then due and payable.

This Guarantee shall remain in full force and effect until all of the Substituted Issuer's payment obligations arising under the Notes have been fully and irrevocably performed. Upon transfer of any of the Notes, this Guarantee will automatically pass to the new holder of such Notes. This Guarantee is governed by, and shall be construed in accordance with, French law. Any claim against the Guarantor in connection with the Guarantee may be brought before any competent court located within the jurisdiction of the Paris *Cour d'Appel*. Notice of any action or proceeding may be served on the Guarantor, for the attention of: [Chief Financial Officer, at its registered and principal office, 1, place Samuel de Champlain, 92400 Courbevoie, France].

Terms used but not defined herein shall have the meaning given to them in the Terms and Conditions as set out in the Base Prospectus of the Issuer dated 22 November 2010 relating to the Programme.

Signed in Paris on [●] in two (2) originals, one for the Guarantor and one for the Fiscal Agent under the above referred Programme.

Overview of Activities

The GDF SUEZ Group is active throughout the entire energy value chain, in electricity and natural gas, upstream to downstream:

- purchasing, production and marketing of natural gas and electricity;
- transmission, storage, distribution, management and development of major natural gas infrastructures;
- energy services and services related to environmental management (water, waste).

GDF SUEZ presents a balanced profile – not only is it active in complementary businesses throughout the entire energy value chain, it also operates in regions subject to different economic cycles and market trends.

The geographic and industrial complementarity of the two groups, SUEZ and Gaz de France, which merged in 2008, affords GDF SUEZ a leading position on the European and global energy landscape.

GDF SUEZ has a four-point development strategy:

- to reinforce its leading position in its two domestic markets, France and Benelux;
- to capitalize on the complementarities in order to expand its offers: dual gas/electricity packages, innovative energy services;
- to pursue its industrial development, in particular in upstream gas activities (exploration and production (E&P)), liquefied natural gas (LNG), infrastructures and electricity production (nuclear, renewable energies, etc.);
- to further growth opportunities on the broad international stage (Latin America, South-East Asia, Middle-East and North America), in particular by developing independent power production in new strongly growing markets as well as through integrated E&P and LNG projects in Asia.

Listed in Brussels (Belgium), Luxembourg and Paris (France), GDF SUEZ is represented in the major international indices: CAC 40, BEL 20, DJ Stoxx 50, DJ Euro Stoxx 50, Euronext 100, FTSE Eurotop 100, MSCI Europe and ASPI Eurozone.

In 2009, GDF SUEZ was ranked the largest listed utility in the world in the annual classification of the 2,000 largest listed global companies published by *Forbes* magazine (17th in the general category, 2nd among

French companies) and 6th of the 40 best companies in the world as determined by the international consultancy A.T. Kearney for *Business Week*.

In a Group-wide participatory forum rolled out in 2009, the Group defined its fundamental values as drive, commitment, daring, and cohesion.

GDF SUEZ is structured in:

- 6 business lines (five energy business lines and one environment business line) sometimes subdivided into business areas, that operate a set of business units (BUs) which are structures that group similar activities in terms of business challenges (market, competition, regulation, cost structure, geography);
- Functional divisions that provide supervision both at corporate and business line level.

The **Energy France** business line operates in France, ensuring gas and electricity supplies, electricity production and the provision of energy services to private individuals.

The **Energy Europe & International business** line (broken down into five business areas: Energy Benelux & Germany, Energy Europe, Energy Latin America, Energy North America, Energy Middle-East, Asia and Africa) ensures the production and supply of electricity and energy services as well as the distribution and supply of natural gas worldwide outside France.

The **Global Gas and LNG** business line is in charge of the exploration & production of natural gas and oil, supply and shipping of natural gas and LNG, energy trading, and supplying major accounts in Europe.

The **Infrastructures** business line builds and operates large natural gas transport infrastructures in France, Austria and Germany, regasification terminals and distribution networks in France. It also manages storage activities in France and abroad.

The **Energy Services** business line provides comprehensive multitechnical service packages (electrical, mechanical and HVAC engineering and system integration), engineering, urban heat- and/ or cooling-network management in France and abroad, design, construction and management of industrial and tertiary energy facilities.

The **Environment** business line ensures water, sanitation and waste management services and water treatment engineering.

Further to the completion of the potential transaction with International Power and the combination of International Power plc and GDF SUEZ Energy International, the GDF SUEZ Group will strengthen its competitive position in the utility sector. See “Recent Developments of the Issuer” hereafter.

The GDF SUEZ center (based both in Paris and Brussels) is responsible for strategic orientations and financial performance, in particular for:

- defining and adapting structures;
- developing broad functional policies (finance, strategy, audit, internal control, risk management, human resources, office of general secretary, legal, communications, research-innovation, performance, information systems, purchasing, safety, etc.);
- controlling and overseeing the implementation of internal policies and procedures;
- steering functional lines;
- steering transversal processes, in particular developing intrabusiness-line synergies;

- and within shared service centers and centers of expertise, steering missions that can be shared by several business lines.

See also 7.5.2.2 – Report of the Chairman of the Board of Directors pursuant to Article L. 225-37 of the French commercial code.

2010 will see the uniting, in two adjoining towers provisionally called T1 and B Building at La Défense, certain business line teams based in the Ile-de-France region and most of the ones based in the Headquarters, which currently spread out in around ten or so sites in the Ile-de-France. 1,200 Global Gas & LNG business line employees have already moved there since February. During the course of the year and after obtaining the necessary authorizations, they should be joined by employees of the Energy France business line, the Energy Europe business area and Paris Headquarters. This grouping of almost 4,000 employees demonstrates GDF SUEZ's will to facilitate exchanges and to develop a common culture.

10 August 2010 – The Boards of GDF SUEZ SA ("GDF SUEZ") and International Power plc ("International Power") have entered into a Memorandum of Understanding ("MoU") detailing the terms and conditions of the proposed combination of International Power and GDF SUEZ's Energy International Business Areas

(outside Europe) and certain assets in the UK and Turkey⁵ (collectively "GDF SUEZ Energy International") (the "Combination").

The proposed Combination, as set out in the MoU, will take the form of a contribution of GDF SUEZ Energy International into International Power in exchange for newly issued International Power shares in order to create an enlarged International Power ("New International Power") which will be listed on the Official List of the Financial Services Authority ("Official List") and traded on the Main Market of the London Stock Exchange. Following completion of the Combination, International Power shareholders will own 30 per cent. of New International Power and GDF SUEZ will own 70 per cent.⁶ International Power shareholders will also become entitled to a cash payment of 92 pence per share following completion by way of a special dividend. GDF SUEZ Energy International will be transferred to International Power with €4.4 billion⁷ (£3.7 billion⁸) of net financial debt as at 30 June 2010.

The Boards of GDF SUEZ and International Power believe that the Combination will offer significant benefits for both sets of shareholders, customers and employees, reflecting the compelling industrial logic of the transaction and the excellent geographic and operational fit between both businesses. New International Power will be the global leader in independent power generation, with significantly enhanced growth prospects from a pipeline of committed projects and attractive further opportunities in high growth markets. GDF SUEZ's position as a global leader in power generation and gas will also be strengthened with a greater presence in international growth markets. The creation of New International Power is expected to deliver immediate and long term value to shareholders of both GDF SUEZ and International Power.

Gérard Mestrallet, Chairman and CEO of GDF SUEZ, commented today: *"This agreement, which combines these two businesses, creates the leading global energy player in IPP with strong market positions in Latin America, North America, UK-Europe, the Middle East, Asia, and Australia. The combined business will have both the operational expertise and the financial flexibility to capture the significant growth opportunities in international energy infrastructure markets over the next decade. International Power will be particularly well positioned to capture the growth opportunities in emerging markets, where energy needs will be strong in the coming years. As a result of this transaction, GDF SUEZ will achieve its strategic objective of 100 GW in operation and strengthen its worldwide leadership in power generation. I am sure that the combination of the highly professional and excellent teams of International Power with our own international people will make that common project a great success."*

Sir Neville Simms, Chairman of International Power, said: *"This is a strong combination of two world class businesses that have a highly complementary geographic footprint. The combined company will benefit from significant synergies, a strong pipeline of committed new build and broader access to high growth markets for further expansion. It will also have a robust capital structure with access to significant additional capital from GDF SUEZ at an attractive cost that will underpin the delivery of enhanced growth. International Power shareholders will benefit from enhanced value in the form of an ongoing participation in New International Power and from the cash payment. The New International Power will have a strong Board with members drawn from both International Power and GDF SUEZ. This combination, which builds on the successful development of International Power since the demerger in 2000, will create a high growth, world leading independent power generation company that will drive value for all shareholders."*

Creation of the Global Leader in Independent Power Generation

Rationale for the Combination

Excellent Strategic Fit

The Combination of GDF SUEZ Energy International and International Power will create an enlarged International Power and substantially enhance the strategic position of both International Power and GDF SUEZ through the creation of the global leader in independent power generation with over 66 GW⁹ of gross capacity in operation and committed projects expected to deliver 22 GW⁹ of additional gross capacity. New International Power will have leadership positions in major regional markets (Latin America, North America, the UK-Europe, the Middle East, Asia and Australia) with an enhanced exposure to fast growing markets. New International Power will offer an attractive growth profile given its balanced portfolio of assets, fuel mix (strong hydro presence), contractual environment (63 per cent. contracted generation) and significant pipeline of committed projects. This will be further enhanced by the operating and financing synergies arising from the Combination, and the combined business' robust financial structure and improved access to financing.

- International Power is a leading independent power generator with 34.4 GW⁹ of gross capacity in operation and 4.5 GW⁹ of gross capacity under construction. International Power has over 50 power plants across five core regions - North America, Europe, the Middle East, Australia and Asia. International Power has a pipeline of greenfield growth opportunities across its core markets, and particularly in Asia, the Middle East and North Africa. International Power has a strong financial profile with 2009 revenues of £3.9 billion¹⁰ and 2009 EBITDA of £1.4 billion¹⁰. It is listed on the London Stock Exchange with a market capitalisation of £5.8 billion.¹¹
- GDF SUEZ Energy International is a leading global IPP with 32.7 GW⁹ of gross capacity in operation and strong positions in three main regions: North America, Latin America, and the Middle East, Asia and Africa. It is a leading electricity retailer for Industrial & Commercial companies in the United States and a major LNG importer in the US (Boston and Neptune LNG regasification terminal). It has a balanced portfolio in terms of assets, geographic location, fuel mix (strong hydro presence) and contractual / regulatory environments (73 per cent. contracted generation as of 30 June 2010). GDF SUEZ Energy International offers attractive growth prospects as a result of a significant pipeline of committed projects (17.3 GW⁹) which includes Estreito and Jirau in Brazil, and Ras Laffan C, Barka 3 / Sohar 2, and Riyadh PP11 in the Middle East. In 2009, GDF SUEZ Energy International generated sales of €9.3 billion and EBITDA of €2.0 billion.

Following completion, New International Power will be the platform through which GDF SUEZ will drive its international development in energy infrastructure markets and, as part of the Combination, the parties will enter into a non compete arrangement for Continental Europe. New International Power will be able to grow its existing downstream LNG activities but nuclear activities, as well as future development in upstream and midstream gas / LNG activities, will be solely driven by GDF SUEZ.

Substantial Synergies from the Combination

The Combination is expected to generate significant benefits through New International Power's ability to deliver substantial operating and financing synergies, and the enhanced growth profile that the combined business will be able to capture. Total annualised operating and financing pre-tax synergies of £165 million (€197 million¹⁷) per annum are expected to be generated by the sixth year following completion of the Combination with 75 per cent. of the synergies delivered in the second year.

Annualised operating pre-tax synergies of £104 million (€125 million¹⁸) per annum are expected to comprise:

- Optimisation of central and regional costs;
- Optimisation of long term overhaul and maintenance contracts;
- Procurement and energy management benefits; and
- Optimisation of insurance costs.

The size of the anticipated synergies reflects the complementary nature of the businesses and the benefits that enhanced scale can provide. It is expected that in order to deliver these operating synergies, implementation costs of £130 million (€155 million¹⁹) in total will be incurred, largely equally across the first and second year following completion.

The Combination will significantly strengthen New International Power's capital structure and credit ratios with a pro forma net debt of £10.4 billion²⁰ as at 30 June 2010 and net debt/LTM EBITDA (June 2010) of 3.2x. It is anticipated that the credit profile of the combined business will enable it to obtain an investment grade credit rating. As a result, New International Power will benefit from substantial annualised pre-tax

GDF SUEZ is expected to benefit from additional annualised pre-tax synergies of €70 million related to tax and financing optimisation.

The Combination is expected to be earnings accretive to GDF SUEZ's shareholders from the first year following completion.

Break Fee

As part of the MoU, GDF SUEZ and International Power have agreed mutual break fee arrangements. International Power has agreed to pay GDF SUEZ a break fee of €60 million in the event that a competing proposal, in respect of International Power, is announced before definitive documents for the transaction are executed and subsequently completes (or another competing proposal is announced within six months of the first competing proposal and subsequently completes). GDF SUEZ has agreed to pay a break fee of €60 million to International Power in the event that GDF SUEZ sells a material part of the GDF SUEZ Energy International business before definitive documents for the transaction are executed.

Employees

New International Power will be ideally positioned to successfully execute on its strategy and deliver the full range of transaction benefits arising from the Combination given the expertise of over 11,000 employees worldwide. International Power and GDF SUEZ attach great importance to retaining the skills and expertise of the management teams and employees of both International Power and GDF SUEZ Energy International. International Power Convertible Bonds

The Combination will not comprise a "Relevant Event" for the purpose of the outstanding convertible bonds issued by International Power and accordingly will not lead to either an adjustment to the applicable exchange price of the outstanding convertible bonds or a put right for bondholders. Any applicable exchange price adjustments to the outstanding convertible bonds will be made at the relevant time in accordance with the terms of the convertible bonds.

Indicative Timetable

GDF SUEZ and International Power are targeting completion of the Combination at the end of 2010 / early 2011 subject to the following key steps:

- Completion of a consultation process with GDF SUEZ's employees;
- Signing of definitive transaction documentation;
- Approval by International Power's shareholders; and
- Clearance from relevant competition authorities and other regulatory bodies.

Approval of International Power's shareholders is expected to be sought at an Extraordinary General Meeting ("EGM") of International Power which will be convened following the completion of a consultation process with GDF SUEZ's employees and signing of definitive transaction documentation. The directors of International Power intend to unanimously recommend to International Power shareholders that they vote in favour of the Combination at the EGM.

Regulatory Approvals

As the Combination has been classified as a reverse takeover of International Power under the Listing Rules of the UK Listing Authority ("UKLA"), applications will need to be made to the UKLA and the London Stock Exchange for the ordinary shares of New International Power to be admitted to the Official List and to trading on the London Stock Exchange respectively. A prospectus will be required to be published in relation to the application for admission to the Official List of the new and existing shares in New International Power. The eligibility of New International Power has not yet been agreed with the UKLA although an application will be made shortly.

Rule 9 Whitewash

Following completion of the Combination, GDF SUEZ will hold 70 per cent. of the voting rights of New International Power²³. Under Rule 9 of the City Code on Takeovers and Mergers (the "City Code"), a person who acquires an interest in shares which, taken together with shares in which he is already interested, carry 30 per cent. or more of the voting rights of a company must normally make a mandatory offer under Rule 9 of the City Code for all the remaining shares in the company. However, where an obligation to make such a mandatory offer under Rule 9 arises following an issue of new shares, the Panel on Takeovers and Mergers

²³ On an undiluted basis based on 1,523.3 million issued ordinary shares in International Power as at 30 June 2010

will normally consent to a waiver of that obligation provided that, among other things, this is approved by a vote of the independent shareholders. In this case, approval for the waiver of the obligation which would otherwise arise for GDF SUEZ to make an offer for International Power under Rule 9 of the City Code, will be proposed to be sought from International Power's shareholders at the EGM of International Power described above.

Press release dated 31 August 2010 - GDF SUEZ will not ask for any tariff changes on 1st October

In its deliberations dated 31st August 2010, the CRE has confirmed that the current pricing formula has fully represented the supply costs until now. GDF SUEZ is satisfied with these conclusions and as part of the regulatory framework introduced in December 2009 has proposed to include the results of the negotiations with its main suppliers in the pricing formula which will therefore be adapted.

This new formula will be consistent with the long-term contracts necessary to guarantee supply to French households and will include market gas indexing in addition to current indexing.

As committed, the Group will ensure that its customers benefit from all of the progress achieved during its negotiations.

In addition, the company will not be asking for any tariff changes on 1st October. In fact, the changes in oil product prices and dollar exchange rate as well as the result of negotiations with suppliers have led to stability in pricing conditions.

Press release dated 3 September 2010 - GDF SUEZ and Eletrobras sign a joint agreement for developing energy projects

Gérard Mestrallet, Chairman and CEO of GDF SUEZ, and José Antonio Muniz Lopes, CEO of Eletrobras, signed a partnership agreement to develop joint energy projects.

The agreement provides for joint research, project development, and energy production and transmission ventures in renewable energy and/or other energy sources. Geographically, the agreement covers all countries in Central and South America and Africa. In Brazil, GDF SUEZ and Eletrobras will analyze project opportunities on a one-off, case-by-case basis.

The agreement is also intended to promote technical and technological sharing between the two Groups and their respective personnel.

With its very high demand for energy and strong potential for renewable energies, Latin America is a key market for GDF SUEZ. The Group is Brazil's largest private energy producer where it is currently completing two major hydroelectric projects. In Chile, GDF SUEZ is the largest private electricity producer in the country's northern network and is Peru's second largest private electricity generator. In Central America, the Group controls Panama's largest thermal power complex.

Eletrobras is the largest electricity company in Latin America and the Brazilian market's uncontested leader.

With a presence throughout the entire country, Eletrobras is government-owned and has generating capacity of 39,453 MW, accounting for 37% of the country's total capacity. Its energy production base includes 29 hydroelectric dams, 15 thermal power stations, and two nuclear power plants. Eletrobras also operates a nearly 60,000-kilometer electricity transmission network.

Eletrobras also has expertise in the field of energy efficiency and is responsible on the country's behalf for implementing the National Program of Electric Power Conservation (Procel). This program promotes rational energy use and combating energy waste.

GDF SUEZ has sold its entire stake, i.e. 5.01%, in Gas Natural Fenosa through a Blok Trade for a cash consideration of €540 million. This sell-down is part of the optimization strategy of the Group financial resources.

Following this transaction, GDF SUEZ will no longer be a shareholder of Gas Natural Fenosa.

Press release dated 16 September 2010 - Oman - GDF SUEZ closes financing for Barka 3 and Sohar 2 Independent Power Projects

Today, the consortium led by GDF SUEZ completed the financing of the Barka 3 and Sohar 2 independent power projects in Oman. The Group holds 46% of the project, the rest being owned respectively by Shikoku Electric Power Company (Yonden) (11%), Sojitz Corporation (11%), both from Japan, and Bahwan Engineering Group (22%) and the Public Authority for Social Insurance (PASI) (10%) of Oman.

The projects are greenfield natural gas-fired power plants with capacity of 744 MW each. Together they will add almost 1,500 MW to the Sultanate's current existing capacity of some 3,600 MW. Total investment cost will be around 1,700 MUSD for both projects. Their power output will be sold under two separate 15-year power purchase contracts to the Oman Power and Water Procurement Company (OPWP), who will be the single off-taker.

The project is financed through a blend of equity, early generation revenues and a senior debt facility involving export credit agencies Euler-Hermes and KEXIM, and a club of eight international banks : Natixis, KfW-IPEX, Credit Agricole, HSBC, Bayerische Landesbank, Europe Arab Bank, CIC, and Standard Chartered Bank. Senior debt amounts to about 650 MUSD per project or 1,300 MUSD in total.

Dirk Beeuwsaert, Executive Vice President GDF SUEZ, in charge of Energy Europe & International commented: "The success of this financing is further evidence of the expertise and creativity of the GDF SUEZ teams, who just completed the financing of Riyadh IPP in Saudi Arabia. In the prevailing difficult financial market conditions, these achievements contribute to a considerable extend to the sustainability of our business in the Middle East."

Early power for Barka 3 and Sohar 2 is expected to be commissioned by May 2012 and full completion of the plants by April 2013. A Consortium of Germany's Siemens AG and GS Engineering of South Korea was awarded the EPC contract that was signed yesterday 15 September.

GDF SUEZ's presence in the Middle East

With over 15 years of experience in the Gulf countries, GDF SUEZ is the leading private power developer in the region with a direct equity interest in nearly 17,000 MW and more than 2.8 million m³ of water per day of desalination capacity. Its assets are located in the United Arab Emirates, the Sultanate of Oman, the Kingdom of Saudi Arabia, the Kingdom of Bahrain and Qatar.

This year, GDF SUEZ also won the tender for Riyadh IPP, a 1,730 MW greenfield gas-fired power plant in Saudi Arabia that reached financial closure at the end of June. The company is constructing four IWPPs in Saudi Arabia (Marafiq), Qatar (Ras Laffan C), Bahrain (Al Dur) and Abu Dhabi (Shuweihat 2), all of which will be fully operational at the very latest by the end of 2011.

Press release dated 16 September 2010 - GDF SUEZ and ACEA reach an agreement on their partnership in the energy sector

GDF SUEZ and ACEA Spa (“ACEA”) reached today a preliminary agreement on the restructuring of the partnership between the two Companies in order to respond to market changes, their respective strategic perspectives and new priorities.

Upon completion of the transaction, ACEA will gain full control of the sales activities (AceaElectrabel Elettricità), as well as two power plants in Rome (Tor di Valle, Montemartini) and all the hydro-power assets currently owned by AceaElectrabel Produzione. ACEA will also benefit from an option to sign a power supply contract with GDF SUEZ for 5 TWh per year (until the 30 of September 2016).

GDF SUEZ will retain most of the generation capacity and the trading activities currently in joint venture[1]. GDF SUEZ will also increase its stake in Tirreno Power from 35% to 50%. Following this restructuring, GDF SUEZ will increase its net total installed capacity in Italy from 3,700 MW to 4,400 MW[2], obtaining a total electricity generation of 21.9 TWh.

Giancarlo Cremonesi, Chairman of ACEA, comments: “Following this deal, ACEA will be able to focus on the growth objectives and the strategic investments in its core businesses. I remind, moreover, with satisfaction that ACEA and GDF SUEZ, through Suez Environnement, operate jointly and profitably in the water cycle management in several territories of Tuscany. In this sector of activity the two Groups intend to evaluate the opportunity to strengthen and develop their collaboration, in consistence with the Antitrust norms”.

Gérard Mestrallet, Chairman and CEO of GDF SUEZ, comments: “This transaction will allow both GDF SUEZ and ACEA to focus on their respective core strategic activities and development, while keeping their partnership in the water sector”. Gérard Mestrallet also adds: “Through this agreement, GDF SUEZ will be able to develop relevant benefits deriving from the integration of its activities in Italy where it enjoys a complete presence along the energy chain and can rely on a customer base of one million clients. The Italian market is core for the development of the Group which intends to keep on investing all across the energy value chain”.

Further details regarding the agreement have been provided by ACEA in the press release disclosed at Stock Market closed.

[1] GDF SUEZ will retain 100% of AceaElectrabel Produzione and of AceaElectrabel Trading.

[2] Group share. The total asset portfolio represents more than 6 GW installed capacity, of which 3.3 GW through Tirreno Power.

Frédéric Barnaud, President and Managing Director of Gazprom Global LNG said: “We have experienced tremendous growth of our LNG portfolio over the last couple of years, particularly in developing our Asia-

Pacific basin activities. This deal further strengthens our position as a world-class LNG marketer on both sides of the Suez Canal and active participant in the LNG shipping market”.

Vitaly Vasiliev, CEO Gazprom Marketing & Trading added: “We are delighted to extend our close co-operation with GDF SUEZ through this term contract and look forward to developing our relationship further.”

Philip Olivier, President of GDF SUEZ LNG said:“This transaction is an opportunity for GDF SUEZ, one of the largest LNG importer in the world, to extend its LNG customer portfolio and deepen the long term relationship with Gazprom, already covering pipeline supplies, energy savings and efficiency, staff training and development.”

Press release dated 22 September 2010 - GDF SUEZ has successfully placed a 50-year bond issue for £700 million

GDF SUEZ issued a £700-million 50-year bond today, with a 5% coupon. The entire bond was swapped in Euro at an average rate of 4.28%.

This is the largest 50-year transaction ever priced on the sterling market by a corporate.

Investors’ extremely positive reception of the Group confirms the quality of the GDF SUEZ signature and the confidence of the market in the Group’s long-term perspectives.

This issue is part of the Group’s active and dynamic liquidity management. It extends the average maturity of the Group’s gross debt which now goes from 6.1 to 7 years as of June 30, 2010. This operation lowers the average cost of gross debt which amounted to 4.42% as of 30 June 2010.

The placement was managed by Barclays Capital, HSBC and The Royal Bank of Scotland PLC.

Press release dated 27 September 2010 - GDF SUEZ will supply 2.5 million tons of LNG to Kogas, the largest importer of LNG in the world

GDF SUEZ and Korea Gas Corporation (Kogas), the South Korean public natural gas company, have concluded a medium term agreement for the delivery of 41 cargoes of LNG to Kogas. The delivery will start on the fourth quarter of 2010 and continue until 2013. Overall volume will reach approximately 2.5 million tons of LNG.

The LNG cargoes will be sourced from GDF SUEZ’ portfolio of LNG, the most diversified of any other gas companies, representing 16.5 Mtpa.

This transaction illustrates GDF SUEZ’ objective to contribute to the development of the LNG market in particular in Asia where growth and supply prospects are the greatest. This ambition was also illustrated in January 2010 by the acquisition of a 60% stake in three offshore gas fields in Australia: Bonaparte LNG is an integrated LNG project under the form of a Floating Production Storage and Offloading (FPSO) unit, with a 2 Mtpa capacity.

Kogas, the largest importer of LNG in the world, operates the three Korean regasification terminals and 2700 km of high pressure natural gas pipelines in South Korea.

GDF SUEZ is the first LNG importer in Europe and one of the leading LNG player in the world, with a fleet of 18 LNG carriers and a significant presence in regasification terminals in North and South America, in Europe, as well as in India.

Press release dated 30 September 2010 - GDF SUEZ becomes 100% shareholder of Gaselys with the view to create a European leader in energy trading

On September 30, GDF SUEZ acquired the Société Générale 49% stake in Gaselys, a joint energy trading company created by the two groups in 2001.

Gaselys therefore becomes a wholly owned subsidiary of GDF SUEZ with this transaction approved by European competition oversight authorities.

As an investment services provider (ISP), Gaselys keeps its status as a regulated entity which will allow it to continue developing its offer of financial services towards third parties, under the supervision of the French Autorité de Contrôle Prudentiel (ACP) that governs banking and financial establishments.

This transaction is a step forward for the ambitious GDF SUEZ plan for the creation in 2011 of a European leader in trading, combining physical and financial products covering the entire energy mix: natural gas, electricity, oil and refined products, coal and emissions. GDF SUEZ considers trading as an essential link in the upstream/downstream energy chain. It provides innovative solutions to the Group's entities and to its customers, in an increasingly complex and global natural gas and electricity environment, where markets are an essential component.

For this purpose, GDF SUEZ is pursuing its project to unite the Gaselys and Electrabel trading teams (1), which are currently first-rate players in Europe's natural gas and electricity markets. The unified trading platform will keep its dual location in Paris and Brussels.

Jean-François Cirelli, Vice Chairman and President of GDF SUEZ, will serve as Chairman of the Gaselys Board of Directors, and Pierre Chareyre, former Senior Vice President for M&A and Investments in the Group's Finance Division, will serve as CEO.

(1) Subject to consultations with employee representative bodies.

Press release dated 11 October 2010 - GDF SUEZ and China National Offshore Oil Corporation sign a 2.6 million tons of LNG contract

GDF SUEZ has just signed a medium term agreement with CNOOC Gas and Power Group Ltd. which is a wholly owned subsidiary of China National Offshore Oil Corporation (CNOOC), the largest importer of LNG in China. Under this agreement, GDF SUEZ will sell CNOOC about 2.6 million tons of LNG from 2013 during a 4 year period, and the cargoes will be sourced from GDF SUEZ' LNG portfolio.

GDF SUEZ considers Asia as a core development region for its LNG business, with strong growth prospects and new supply potential. GDF SUEZ is the only European utility with the flexibility in its natural gas portfolio to divert volumes to the Asian market, as accomplished with the CNOOC transaction.

CNOOC has been dedicated to supplying reliable clean energy to China, which will be further underpinned by the transaction with GDF SUEZ.

Gérard Mestrallet, Chairman and CEO of GDF SUEZ said “ GDF SUEZ is very satisfied to sign this medium term agreement with CNOOC, which is a major energy player in China. After a first LNG cargo delivered to Shanghai last August, this new contract strengthens GDF SUEZ’s long-term commitment in China, and is a major step in the development of our presence in the energy business in the country.”

Wang Jiexiang, Assistant President of CNOOC and President of CNOOC Gas and Power Group Ltd. said “ CNOOC is very pleased to sign this medium term agreement with GDF SUEZ. This new contract will contribute to energy saving, emission reduction and the development of low-carbon economy of China.”

Press release dated 13 October 2010 - Combination of International Power plc ("International Power") and GDF SUEZ Energy International: progress update

Signing of the definitive transaction documentation

Following completion of the consultation process with GDF SUEZ’s employee representative bodies, GDF SUEZ, Electrabel (a wholly-owned subsidiary of GDF SUEZ) and International Power have now signed the merger deed and the other principal agreements (including the relationship agreement and the financing agreement) in connection with the proposed combination of International Power and GDF SUEZ’s Energy International business to form an enlarged International Power (the “Combination” and “Enlarged International Power”, respectively). The terms and conditions of these agreements are in line with the

Memorandum of Understanding entered into between GDF SUEZ, Electrabel and International Power on 10 August 2010 and further details of the terms of these agreements are set out in section A of the appendices to this announcement.

GDF SUEZ and International Power anticipate completion of the Combination by the end of 2010 or early 2011. Completion of the Combination remains conditional on, among other things, the approval of International Power shareholders at a General Meeting of International Power (the “GM”) and the approval of competition authorities and other regulatory bodies. The directors of International Power intend to unanimously recommend to International Power shareholders that they vote in favour of the Combination at the GM.

Details of the rationale for the Combination and its expected benefits were set out in the announcement on 10 August (the “10 August Announcement”).

Circular and Prospectus

As the Combination has been classified as a reverse takeover of International Power under the Listing Rules of the UK Listing Authority (“UKLA”), applications are required to be made to the UKLA and the London Stock Exchange for the ordinary shares of Enlarged International Power to be admitted to the Official List and to trading on the London Stock Exchange respectively. A Circular will be sent to International Power shareholders in due course containing further details of the Combination together with a notice of the GM. In addition, a Prospectus will be made available in due course in relation to the application for admission to the Official List of the new and existing shares in Enlarged International Power.

Rule 9 Whitewash

Following completion of the Combination, GDF SUEZ will hold approximately 70 per cent. of the voting rights of Enlarged International Power. Under Rule 9 of the City Code on Takeovers and Mergers (the “City Code”), a person who acquires an interest in shares which, taken together with shares in which he is already interested, carry 30 per cent or more of the voting rights of a company must normally make a mandatory offer under Rule 9 of the City Code for all the remaining shares in the company. However, where an obligation to make such a mandatory offer under Rule 9 arises following an issue of new shares, the Panel on Takeovers and Mergers will normally consent to a waiver of that obligation provided that, among other things, this is approved by a vote of the independent shareholders. In this case, approval for the waiver of the obligation which would otherwise arise for GDF SUEZ to make an offer for International Power under Rule 9 of the City Code, will be proposed to be sought from International Power’s shareholders at the GM.

Certain specific information which is required to be included in this announcement in accordance with the UK Listing Rules is set out in section B of the appendices to this announcement.

The Interim Audited Combined Financial Statements of GDF SUEZ Energy International in respect of the period ended and as at 30 June 2010 are available on the GDF SUEZ website and can be downloaded using the following link: <http://www.gdfsuez.com/en/home/news/infosite>.

Capitalised words and expressions used in this announcement have the same meaning as defined in the 10 August Announcement unless the context requires otherwise

The buy back will be financed by a portion of last week's two-tranche, €2 billion bond issue maturing in 2017 and 2022 with coupons of 2.75% and 3.50% respectively.

Along with the 50-year sterling issue completed in September, these operations will further extend the average maturity of the Group's total debt while reducing its financing costs.

(*) *The offers are for 100% of the face value of the tendered bonds maturing in January 2012, 68% of those maturing in January 2013, and 53% of the bond maturing in January 2014.*

Press release dated 3 November 2010 - Results at September, 30 2010

Results at September, 30 2010

Revenues: EUR 60.1 billion (+3.8%)¹

EBITDA: EUR 11.0 billion (+8.8%)¹

Net debt: EUR 31.8 billion (-€1.7 billion from 30 June 10)¹

Total revenues as of September 30, 2010 were €60.1 billion for a total variation of +3.8%. This result confirms the Group's solid 1st half performance.

Revenues of the first 9 months are marked mainly by:

- growth in electricity sales in Europe's main wholesale markets, sustained energy demand in Latin America, demand recovery in Asia and the contribution of the new assets commissioned (mainly gas-fired plants and wind farms in France, and hydraulic power in Brazil),
- economic conditions that are still difficult for natural gas markets,
- growth in infrastructure business and good resilience of energy services activities,
- positive contribution of recent industrial developments (mainly the combination of Chilean electricity and gas transmission assets owned by GDF SUEZ and the Codelco mining group, increased ownership in the Astoria I gas power plant in New York, and completion of the friendly takeover of Agbar),
- strong growth of SUEZ ENVIRONNEMENT,
- continuing favorable exchange rate fluctuations and weather conditions.

At the end of September 2010, the Group's electricity sales came to 272 TWh and sales of natural gas to 621 TWh.

EBITDA over the period came to €11.0 billion, with a total variation of +8.8% and organic growth of +3.8% versus September 30, 2009. This trend is explained mainly by:

- progress in the results of the Energy France Business Line with improved production of electricity, favorable weather conditions, and implementation of the public service contract,

- sustained growth in the Energy Europe and International Business Line in all geographic areas except North America,
- solid performance of the Infrastructures Business Line, enhanced in particular by the weather conditions,
- resilience in Energy Services Business Line results, mainly thanks to Cofely activities in France and engineering internationally,
- strong growth of SUEZ ENVIRONNEMENT, carried mainly by international business, sorting and recycling activities in Europe and the full consolidation of Agbar.

These effects were partially offset, however, by the falloff in Global Gas and LNG results in line with the trend observed as of June 30 and due to the unfavorable market conditions.

The Group confirms its objective of EBITDA growth in 2010 and a 15% increase in 2011 over 2009². It also confirms continuation of its ambitious industrial development program on the order of €10 billion for the year. In all, and over the last three years, the Group will thus have invested €30 billion in its industrial tool.

The net debt was €31.8 billion at the end September 2010, down €1.7 billion from end June 2010. This figure mainly reflects industrial investments the Group has made, the impact of selling the Group's share of Gas Natural Fenosa, the favorable effect of exchange rate fluctuations during the third quarter, and SUEZ ENVIRONNEMENT's hybrid debt issue.

1 Unaudited data as of September 30, 2010, examined by the Board of Directors on November 2, 2010.

2 The 2011 objective is based on the assumptions of average weather conditions, no substantial change in regulations or the macro-economic environment, and on the underlying 2010-2011 assumptions of an average Brent price of \$74-79 per barrel, average price of baseload electricity in Belgium of €48-48/MWh, and average price of gas at Zeebrugge of €15-17/MWh.

Revenues	9,752	9,785	-0.3%	-0.4%

As of September 30, 2010, the Energy France Business Line generated EUR 9,752 million in revenues, nearly stable as compared to the September 30, 2009 figure.

The decline in sales revenue based on average climate conditions for the period came to -5.3% and is primarily explained by the full effect of the -11.3% decrease in regulated tariffs on natural gas for public distribution, which came into effect on April 1, 2009. At the end of September, the impact of the April 1 and July 1, 2010 tariff increases was still limited considering the seasonal nature of sales.

Natural gas sales volumes were 191 TWh, up +3.3% over 2009. GDF SUEZ maintained a market share of about 90% in the residential market and about 76%²⁹ in the business market (industrial customers, retail,...).

Electricity sales volumes reached 26 TWh, progressing 4.6% over 2009, mainly thanks to the development of the residential customer portfolio, which exceeded 900,000 customers at the end of September. Since the beginning of 2010, more than 200,000 additional individual customers have been won over. At end September 2010, the total number of sites served, individual and professional, was 1,130,000.

Benelux Germany division

At the end of September 2010, division **revenues** came to €10,268 million, progressing 8.6% over 2009 with organic growth of 7.2% (a positive impact from changes in scope stemming mainly from the proportional consolidation of Stadtwerke Wuppertal in Germany).

Electricity sales volumes were €7,703 million, up 9% over September 30, 2009, with volume sold up 13% at 96.9 TWh (+11.3 TWh).

²⁹ After adjustment of the reference contract by the CRE.

Electricity production came to 65.9 TWh, with a slight progression of +0,4 TWh (+0,6%) over September 2009.

In **Belgium and Luxembourg**, sales were up by 0.6 TWh (+1.1%) to 54,9 TWh thanks to a resumption of demand from major accounts in Belgium.

Electricity sales volumes in the **Netherlands**, at 16.5 TWh, grew by 1.5 TWh and €26 million, or +7%.

In **Germany**, the electricity sales volumes were up by 6.6 TWh to 13.8 TWh, mainly due to the increased sales on the wholesale market due to the exchange of production capacities with E.ON.

Lastly, the division's electricity sales outside Benelux-Germany grew by 2.6 TWh for revenues of €719 million, and concerned sales on wholesale markets in France, the United Kingdom, Poland and Hungary.

Natural gas sales totaled €2,079 million, a +7,2% increase, thanks to the strong growth in volumes to +11,3 TWh, or +22.1%, due mainly to the favorable weather conditions, partly offset by unfavorable price effects (-€4.6 /MWh on average).

Europe division

As of September 30, 2010, division **revenues** totaled €5,869 million, a total increase of +1.9% over September 30, 2009.

The exchange rate fluctuations were positive in Central Europe and Eastern Europe (+€60 million) as well as in the United Kingdom (+€35 million).

Organic revenues, stable in relation to the previous year, is explained by the following variations:

- In Italy (€2,568 million, growth of +€118 million), the division witnessed a significant increase in volumes sold both in electricity (+2.3 TWh) and in gas (+1.3 TWh), though with decreasing prices.
- In Central Europe³⁰ and Eastern Europe³¹ (€1,939 billion, down -€123 million), the business variation reflects the downward trend in commodities prices on most markets despite an increase in volumes sold and distributed in the region (+4.7 TWh).
- In Western Europe³² (€1,362 million, up +€13 million), revenue was stable in the United Kingdom while growing in Spain thanks to the hedging policy and despite the drop in market prices and product volumes.

Latin America division

The division's **revenues** amounted to €2,328 million at September 30, 2010, marking a +57.6% increase and organic growth of +19.7%.

Revenue includes €313 million from positive changes in scope, mainly stemming from the merger and takeover of electrical businesses in Chile (in particular Electroandina and Edelnor, at the end of January 2010). There is also the benefit of positive exchange rate fluctuations (+€208 million) related mainly to the appreciation of the Brazilian Real.

³⁰ Poland and Hungary.

³¹ Romania, Slovakia, Greece and Turkey.

³² United Kingdom, Spain and Portugal.

Electricity and **natural gas** sales increased respectively by +6.5 TWh, amounting to 36.5 TWh, and by +2.9 TWh, reaching 9.6 TWh.

The organic growth of revenue is explained mainly by the rise in volumes sold in Brazil, and to the average sales prices (+€166 million, mainly as the hydraulic power station of San Salvador was put into service in August 2009), by increased spot sales (volumes up and higher spot price, mainly during the third quarter of 2010), and by the contribution of the commissioning of assets (+€107 million), mainly in Chile (with the Mejillones LNG terminal and the Monte Redondo wind farm) as well as the Guanacaste wind farm in Costa Rica.

North America division

As of September 30, 2010, the division's **revenues** were €3,229 million, up +7% thanks to positive exchange rate fluctuations (+€127 million) with the appreciation of the US dollar, and change in scope for +€146 million with the full consolidation of Astoria I.

While electricity sales reached 44.9 TWh and increased by +6.4 TWh, natural gas sales are down by -2.1 TWh³³ to 48.8 TWh.

This variation is explained mainly by the drop in LNG business in the United States (-€196 million) due to the sharp decrease in volumes sold and in prices.

Middle East, Asia & Africa division

The division's total **revenue** progressed by +23.8% to €1,452 million, mainly due to positive exchange rate fluctuations (+€89 million).

The organic growth of +€13.9% (+€176 million) was mainly driven by Senoko (+€96 million) thanks to recovering demand in Singapore, by Thailand (+€29 million), which witnessed periods of maintenance in early 2009, and by the launch of operation and maintenance activities as service started up on several units of the Marafiq project in Saudi Arabia.

The division's **electricity** sales reached 19.9 TWh and progressed +1 TWh. **Natural gas** sales were at 0.5 TWh following changes in Group structure.

The Global Gas & LNG Business Line's total **sales revenues**, including intra-group services, comes to €14,043 million, with a total drop of -€1,095 million, or -7.2% compared to the first 3 quarters of 2009.

Sales revenues from the Global Gas & LNG Business Line was €6,557 million, down -€1,242 million (-15.9% in total change) from September 30, 2009.

The business line's revenue decline was due mainly to the following effects:

- lower short-term sales with volumes overall dipping -10.9 TWh, with 67.2 TWh at end September 2010 versus 78.1 TWh at end September 2009, in a gas price context which weighted on volumes early in the year;
- lower natural gas sales to Major European Accounts, which went from 129.2 TWh at the end of September 2009 to 119.1 TWh, a drop of -10.1 TWh, in a context of strong competition reflected by a decrease in average sales prices over the period despite the impact of the price hedging;
- partly offset by the growth of external sales of LNG with 23.2 TWh (or 25.5 cargos, 9 of them in Asia) versus 9.3 TWh at end September 2009 (or 12 cargos).

Exploration-Production revenues were practically stable (+1%) with a dip in total hydrocarbon production (24.6 Mbep at end September 2010 versus 26.1 Mbep at end September 2009) offset by the 40% rise in the average price of oil over the period (average price of Brent at €58.4/Bep at the end of September 2010 versus €41.8/Bep at end September 2009).

The total revenue of the Infrastructures Business Line, including intra-group services, amounted to €4,192 million, increasing +4.4% from September 30, 2009.

The growth of total revenues was supported by:

- an increase in volumes dispatched by GrDF because of more rigorous weather conditions (+14.7 TWh);
- the start of commercial activities at the Fos Cavaou LNG terminal at 20% of its capacities (reception of two tankers per month on average) on April 1, 2010;
- revision of the tariff for transport activities in France on April 1, 2010 (up +3.9%), offset by entry into force of the regulated tariff in Germany on October 1, 2009;
- revision of the distribution infrastructures access tariff on July 1, 2009 (up +1.5%) and on July 1, 2010 (up +0.8%);
- the implementation on January 1, 2010 of the new LNG terminal access tariff.

Revenues reached €844 million, up +19.4% from September 30, 2009. This growth is explained by the development of the volumes dispatched by GrDF and GRTgaz on behalf of third parties because of the increased opening of markets.

The Energy Services Business Line revenues reached €9,640 million, with an organic decline of -0.9% from September 2009.

In France, services activities (Cofely France) slowed slightly (-1.8% in organic terms, or -€43 million), with the favorable effects of commercial development compensating the drops in energy prices and resulting workload volumes for service contracts. Installation and maintenance activities experienced organic growth of +4.1% (or +€108 million). This performance resulted mainly from a growth of +8.0% in business at Inéo, the activity of the HVAC sector (-1.0%) and Endel (+0.7%) experiencing a certain stability.

In Belgium and the Netherlands, business is in organic decline, respectively by -3.1% (-€37 million) and -12.0% (-€98 million). In Belgium, this development is explained by the strain the economic situation is having on the installation professions beset with less business in the energy sector. In the Netherlands, government projects in the infrastructures field are not offsetting the contraction in demand of private customers in all regions.

Tractebel Engineering continues its sustained development with an organic growth of 1.3% (or +€5 million) in revenue.

Outside France and Benelux, business is showing organic growth of +3.0% in Northern Europe (or +€28 million) thanks to the performances registered in Germany. In the United Kingdom, business is sustained by the workloads for the London Olympic Games contract. In the countries of Southern Europe, the level of business is off -5.7% (-€64 million), mainly in Spain where the number of new projects is sharply reduced, and in Italy where the workload volumes on resulting service contracts remain low. Lastly, International Overseas shows organic growth of +5.0% (+€17 million).

The three segments grew, and were especially sustained internationally and in the sorting and recycling businesses in Europe. During the 3rd quarter of 2010, SUEZ ENVIRONNEMENT confirmed its commercial dynamics, winning contracts such as the Suffolk and South Tyne and Wear waste PFIs in the United Kingdom and the Strasbourg and Achères wastewater contracts in France.

The change in revenues and the operational performance at end September 2010 were detailed in the SUEZ ENVIRONNEMENT publication of October 28, 2010.

TAXATION

The following is a general description of certain French tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in France or elsewhere. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the current legislation, published case law and other published guidelines and regulations as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date (potentially with retroactive effect). This description is for general information only and does not purport to be comprehensive.

EU Savings Directive

On 3 June 2003, the European Council of Economics and Finance Ministers adopted Directive 2003/48/EC on the taxation of savings income (the “**Directive**”). Pursuant to the Directive and subject to a number of conditions being met, Member States are required, since 1 July 2005, to provide to the tax authorities of another Member State, inter alia, details of payments of interest within the meaning of the Directive (interest, premium or other debt income) made by a paying agent located within its jurisdiction to, or for the benefit of, an individual resident in that other Member State or to certain limited types of entities established in that other Member State (the “**Disclosure of Information Method**”).

For these purposes, the term “**paying agent**” is defined widely and includes in particular any economic operator who is responsible for making interest payments, within the meaning of the Directive, for the immediate benefit of individuals.

However, throughout a transitional period, certain Member States (the Grand-Duchy of Luxembourg and Austria), instead of using the Disclosure of Information Method used by other Member States, unless the relevant beneficial owner elects for the Disclosure of Information Method, or unless the Member State elects otherwise during this transitional period, withhold an amount on interest payments. The rate of such withholding tax equals 20% as from 1 July 2008 and will increase to 35% as from 1 July 2011 until the end of the transitional period.

Such transitional period will end at the end of the first full fiscal year following the later of (i) the date of entry into force of an agreement between the European Community, following a unanimous decision of the European Council, and the last of Switzerland, Liechtenstein, San Marino, Monaco and Andorra, providing for the exchange of information upon request as defined in the OECD Model Agreement on Exchange of Information on Tax Matters released on 18 April 2002 (the “**OECD Model Agreement**”) with respect to interest payments within the meaning of the Directive, in addition to the simultaneous application by those same countries of a withholding tax on such payments at the rate applicable for the corresponding periods mentioned above and (ii) the date on which the European Council unanimously agrees that the United States of America is committed to exchange of information upon request as defined in the OECD Model Agreement with respect to interest payments within the meaning of the Directive.

A number of non-EU countries and dependent or associated territories have agreed to adopt similar measures (transitional withholding or exchange of information) with effect since 1 July 2005.

On 15 September 2008, the European Commission issued a report to the Council of the European Union on the operation of the Directive, which included the Commission's advice on the need for changes to the Directive. On 13 November 2008, the European Commission published a more detailed proposal for amendments to the Directive, which included a number of suggested changes. The European Parliament approved an amended version of this proposal on 24 April 2009. If any of those proposed changes are made in relation to the Directive, they may amend or broaden the scope of the requirements described above.

France

EU Savings Directive

The Directive was implemented into French law under Article 242 *ter* of the French *Code général des impôts*, which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner.

Withholding tax

Notes issued as from 1 March 2010

Following the introduction of the French *loi de finances rectificative pour 2009 no. 3* (n° 2009-1674 dated 30 December 2009 applicable as from 1 March 2010) (the “**Law**”), payments of interest and other revenues made by the Issuer with respect to Notes issued on or after 1 March 2010 (other than Notes (described below) which are assimilated (*assimilées*) and form a single series with Notes issued prior to 1 March 2010 having the benefit of Article 131 *quater* of the French *Code général des impôts*) will not be subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *Code général des impôts* (a “**Non-Cooperative State**”). If such payments under the Notes are made in a Non-Cooperative State, a 50 per cent. withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty) by virtue of Article 125 A III of the French *Code général des impôts*.

Furthermore, according to Article 238 A of the French *Code général des impôts* interest and other revenues on such Notes will no longer be deductible from the Issuer's taxable income, as from the fiscal years starting on or after 1 January 2011, if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State. Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Article 109 of the French *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* of the French *Code général des impôts*, at a rate of 25 per cent. or 50 per cent. subject to the more favourable provisions of a tax treaty, if applicable.

Notwithstanding the foregoing, the Law provides that neither the 50 per cent. withholding tax set out under Article 125 A III of the French *Code général des impôts* nor the non-deductibility provided under Article 238 A of the French *Code général des impôts* will apply in respect of a particular issue of Notes if the Issuer can prove that the principal purpose and effect of such issue of Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the “**Exception**”). Pursuant to the ruling (*rescrit*) 2010/11 (FP and FE) of the French tax authorities dated 22 February 2010, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L.411-1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State other than in a Non-Cooperative State. For this purpose, an “equivalent offer” means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Notes which are to be assimilated (*assimilées*) with Notes issued before 1 March 2010

Payments of interest and other revenues with respect to Notes which are issued on or after 1 March 2010 and which are to be assimilated (*assimilées*) and form a single series with Notes issued before 1 March 2010 and having the benefit of Article 131 *quater* of the French *Code général des impôts*, will continue to be exempt from the withholding tax set out under Article 125 A III of the French *Code général des impôts*.

Notes issued before 1 March 2010, whether denominated in Euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of rulings (*rescrits*) 2007/59 (FP) and 2009/23 (FP) of the French tax authorities dated 8 January 2008 and 7 April 2009, respectively, or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside the Republic of France for the purpose of Article 131 *quater* of the French *Code général des impôts*, in accordance with Circular 5 I-11-98 of the French tax authorities dated 30 September 1998 and the aforementioned rulings (*rescrits*) 2007/59 (FP) and 2009/23 (FP).

In addition, interest and other revenues paid by the Issuer on Notes issued on or after 1 March 2010 and which are to be assimilated (*assimilées*) and form a single series with Notes issued before 1 March 2010 will not be subject to the deductibility exclusion of Article 238 A of the French *Code général des impôts* and will not be subject to the withholding tax set out in Article 119 *bis* of the French *Code général des impôts* solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

The Issuer has agreed to reimburse the Arranger for certain of its expenses incurred in connection with the establishment of the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions in respect of an issue of Notes on a syndicated basis will be stated in the relevant Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. In addition, until 40 days after the commencement of the offering of any Tranche of Notes, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

This Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of the Notes outside the United States. This Base Prospectus does not constitute an offer to any person in the United States or to any U.S. person. Distribution of this Base Prospectus by any non-U.S. person outside the United States to any other person within the United States, other than those persons, if any, retained to advise such non-U.S. person with respect thereto, is unauthorised and any disclosure without the prior written consent of the Issuer or any of its contents to any such U.S. person or other person within the United States, other than those persons, if any, retained to advise such non-U.S. person, is prohibited.

Each issue of index-, commodity- or currency-linked Notes shall be subject to such additional U.S. selling restrictions as the relevant Dealer(s) shall agree with the Issuer as a term of the issue and purchase or, as the case may be, subscription of such Notes. Any such additional selling restrictions shall be included in the relevant Final Terms.

Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Non-exempt Offer**”), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable;
- (b) at any time to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (c) at any time to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

- (d) at any time to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (e) at any time in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3(2) of the Prospectus Directive;

provided that no such offer of Notes referred to in (b) to (e) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) in relation to any Notes which have a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 (the “**FSMA**”) by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

France

Each of the Dealers has represented and agreed that:

- (i) Offer to the public in France:

it has only made and will only make an offer of Notes to the public in France in the period beginning on the date of the approval of the prospectus relating to those Notes by the *Autorité des marchés financiers*, all in accordance with Articles L.412-1 and L.621-8 of the French *Code monétaire et financier* and the *Règlement général* of the AMF, and ending at the latest on the date which is 12 months after the date of the approval of the Base Prospectus; or

(ii) Private placement in France:

it has not offered or sold and will not offer or sell, directly or indirectly, any Notes to the public in France and it has not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in France, the Base Prospectus, the relevant Final Terms or any other offering material relating to the Notes and such offers, sales and distributions have been and will be made in France only to (a) persons providing investment services relating to portfolio management for the account of third parties, and/or (b) qualified investors (*investisseurs qualifiés*) as defined in, and in accordance with, Articles L.411-1, L.411-2 and D.411-1 to D.411-3 of the French *Code monétaire et financier*.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (the “**Financial Instruments and Exchange Act**”). Accordingly, each of the Dealers has represented and agreed that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes in Japan or to a resident of Japan (as defined under item 5, paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Control Law (Law No. 228 of 1949 as amended)) or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with the Financial Instruments and Exchange Act and other relevant laws and regulations of Japan.

General

These selling restrictions may be modified by the agreement of the Issuer and the Dealers. Any such modification or supplement will be set out in the Final Terms issued in respect of the issue of Notes to which it relates or in a supplement to this Base Prospectus.

No action has been taken in any jurisdiction that would permit an offer to the public of any of the Notes, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

Each Dealer has agreed that it will comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms and obtain any consent, approval or permission required for the purchase, offer or sale of Notes under the laws and regulations in force in any jurisdiction in which it makes such purchase, offer or sale and none of the Issuer or any other Dealer shall have responsibility therefore.

Each of the Dealers and the Issuer has represented and agreed that Materialised Notes may only be issued outside France and the United States.
