

## **Commercialization procedure for capacities made available on the market by GDF SUEZ at the Fos-Cavaou LNG terminal**

In accordance with the European Commission's decision of 3 December 2009 accepting the commitments proposed by GDF SUEZ (\*), GDF SUEZ is informing the market that a new commercialization procedure will take place for regasification capacities at the Fos-Cavaou LNG terminal for the capacities not subscribed after the transfer procedures conducted between 2010 and 2013. Those procedures led to the transfer to a shipper of a batch of 1 Gm<sup>3</sup>/year for 5 years (2011-2015).

The regasification capacities made available on the market at the Fos-Cavaou LNG terminal, connecting to France's South Zone, will amount to 1 Gm<sup>3</sup> in 2015 and to 2 Gm<sup>3</sup>/year as of 1 January 2016. They will be commercialized under the control of the Proxy, according to the same procedure as the one of 2013 ("Commercialization procedure for capacities at the Fos-Cavaou LNG terminal").

GDF SUEZ therefore invites all companies which are considering booking the capacities proposed by GDF SUEZ at the Fos-Cavaou LNG terminal to attend an informational meeting on the commercialization procedure.

The Commission de régulation de l'énergie (CRE - the French Energy Regulatory Commission), the Proxy in charge of monitoring the above commitments, and Fosmax LNG have also been invited to attend this meeting.

The meeting will take place on **the 4<sup>th</sup> of March 2014 from 3:00 pm to 4:30 pm** at the head office of GDF SUEZ, at the following address:

1 place Samuel de Champlain  
Faubourg de l'Arche  
92400PARIS LA DÉFENSE

In order to facilitate the organization of this meeting, GDF SUEZ kindly requests that interested companies communicate the names of their representatives participating in the meeting to GDF SUEZ by email at the following address ([adeline.billard@gdfsuez.com](mailto:adeline.billard@gdfsuez.com)) by 21 February 2014.

If required, further information on the Commercialization procedure for capacities at the Fos-Cavaou LNG terminal may also be requested by email to the address above.
