ENGIE
key figures
We are...

a global reference in low-carbon energy and services. In response to the urgency of climate change, our ambition is to become the world leader in the zero-carbon transition “as a service” for our customers, in particular global companies and local authorities.

We rely on our key activities (renewable energy, gas, services) to offer competitive turnkey solutions.

With our 160,000 employees, our customers, partners and stakeholders, we are a community of *Imaginative Builders*, committed every day to more harmonious progress.
ENGIE in 2018

160,000 employees around the world
€61Bn of revenues*

WE INVEST IN INNOVATION
€182M in Research & Development
€166M in innovative start-ups

WE PROTET THE PLANET
-56% of CO₂ emissions between 2012 and 2018
93% of activities low in CO₂ emissions

WE HAVE
104.3 GW of installed power production capacity

On 5 continents
29,700 hirings worldwide

WE PRODUCE
420 TWh of electricity

55% natural gas
27% renewables
7% coal
6% nuclear
5% other

WE INVEST IN ACCESS TO ENERGY
€25M Through the ENGIE Rassembleurs d'Énergies fund

+ 9 GW in renewable capacity between 2019 and 2021

And tomorrow? ENGIE, leader in the zero-carbon transition “as a service”

11-12€Bn in investments in energy transition over 2019-2021
7 to 9% annual average growth by 2021 of Net Recurring income group share

* Breakdown of contribution revenue: €19Bn customer solutions, €3Bn renewables, €7Bn infrastructure, €6Bn thermal and nuclear, €21Bn energy sales to end customers, €5Bn other activities.
Customer solutions: a growth driver

In 2018

1st globally in cold distribution networks

2nd global supplier of technical installation services

4th globally in hot distribution network

€19Bn of revenues

And tomorrow?

4-5€Bn in investments on customer solutions between 2019 and 2021
Renewable energies: a key player

In 2018

1st
in wind and solar in France

1st
globally in micro-grids

2nd
globally in electric vehicle recharging stations

24.8 GW
of installed renewable capacity

+1.1 GW
of additional installed capacity in both wind and solar

€3Bn
of revenues

And tomorrow?

50% of new renewable projects dedicated to specific customers by 2021

66% hydro
22% onshore wind
9% solar
3% other sources (biomass etc.)
Gas and electricity networks: leading positions

In 2018

1st
gas infrastructure operator in Europe (transmission networks, distribution networks, storage and LNG terminals)

1st
green hydrogen injection in the French gas distribution network

1st
underground gas storage player in Europe

2nd
operator of terminals in Europe

250,000 km of distribution network worldwide

37,000 km of transportation network worldwide

€7Bn of revenues

And tomorrow?

3-3.3€Bn in growth investments in the world between 2019 and 2021
And tomorrow?

A commitment to reduce CO₂ emission by divesting from coal assets
Join the *Imaginative Builders* Community*.

* Women and men who imagine and build harmonious progress.
